**Journey of the Future Enterprise** Jorge Calvo, 2020-10-29 To survive in the new competitive digital economy of artificial intelligence and the Internet of Things, companies will have to change their management models. The company of linear incremental growth is becoming obsolete. Moonshot leaders like Elon Musk or Jeff Bezos aspire to bringing about massive transformations. These visionaries seek radical solutions to big problems through enabling technologies that are easily scalable and yield increasing returns with decreasing marginal costs that in many cases approach zero. In his book *Journey of the Future Enterprise*, Jorge Calvo explains what the disruptive change of the Fourth Industrial Revolution consists of, what moonshot leadership is, and what exponential organizations (ExOs) are, and having set out the conceptual framework, explains how to gear companies toward the new economy. In short, this resource-packed book is written for those who want to be part of this change, for those who are suffering the impact of this radical transformation, for those who feel lost as a result of the complexity and speed of the changes that are taking place, and for those who want to better understand the drivers of the Fourth Industrial Revolution.
