**Write. Publish. Repeat. (The No-Luck-Required Guide to Self-Publishing Success)** Sean M Platt,Johnny B. Truant,David Wright,2014-01-02 Are you ready to start making a full time living with your stories Self publishing isn t as hard as most authors make it Write Publish Repeat was written to save you from unnecessary struggle Yes there is a lot to learn and more competition than ever before but for those storytellers who are willing to do the work then set their efforts on repeat there s never been a better time to make a living as a writer Thousands of new books are published on Amazon every single day The vast majority will never sell more than a handful of copies This is devastating for hard working authors who care about their craft and are doing all of the things they re supposed to do if they want to make it as a successful author But it s confusing out there with too many things to learn and not enough time to learn them Worse so much of the available advice comes from people who are in the business of selling advice They re either parroting what others have said are making guesses based on assumptions or anecdotal evidence or are using their personal yet minimal experience with a successful book or perhaps even a few to articulate loose strategies that often have an absurdly short shelf life This book is different Write Publish Repeat was written by successful authors who have been in the indie game since the very beginning In the last ten years we ve gone from zero books to a few hundred with copies sold in the millions film and television projects in the works and hands on work with hundreds of writers like you We ve also made more mistakes than we can count But we made them so you don t have to This book explains how to create stories your readers will love and will want to return to again and again It details expert methods for enhancing creativity building worlds characters and plots understanding your market right down to your ideal reader using the best tools possible to capture your draft and explains proven best practices for editing It discusses covers titles formatting pricing and publishing to multiple platforms plus a bit on getting your books

into print and why that might not be a good idea But most importantly Write Publish Repeat details the psychology driven marketing plan that Sean and Johnny built to shape their stories into products that readers couldn't help but be drawn into thus almost automatically generating sales and explores ways that smart business minded writers can do the same to future proof their careers What Indie Authors and Thought Leaders Are Saying Two of the best in the biz A gem for aspiring authors Hugh Howey For my money this is the best book on self publishing out there David Gaughran It's tough to find more honest and straight forward marketing advice than what you'll get from these indie authors Jane Friedman former publisher of Writer's Digest The Hollywood Reporter, 2009 *The Beginner's Guide to Blogging* David Grete, 2020-05 It all started about a decade ago when the economy went south and I lost my job I found myself without purpose surviving on unemployment checks and aimlessly searching for an alternative way to earn a living Contrarily losing my job was one of the best things that has ever happened to me The part I didn't handle so well was the uncertainty How was I going to support myself What was I going to do with myself Every day I faced the daunting task of finding a new job no easy feat during the great financial crash of 2008 2009 and the biggest economic downturn in my life I'd heard of the possibilities of blogging There were a few bloggers doing what I could only dream of doing Making a living just for doing something they loved I gave it some consideration and contacted some of them Many were kind enough to answer my emails and some gave me some solid advice on getting started with my very own blog Have you noticed how some bloggers make six or seven figure incomes while others struggle to even make 100 What if I could teach you some key skills and habits that could make your blog a true success financially One of the biggest secrets I can share about blogging one that I quickly came to understand from other successful communicators is that you have to be passionate about what you're writing But this book has so much more to offer In this book you'll find easy step by step instructions on how to Setup your very own blog Analyze and select a specific niche that is both profitable and that you are passionate about Promote and market your blog using several proven social media marketing strategies Apply basic content strategy and design elements to your blog posts to make them go viral Apply 25 essential blogging tips that can help you turn passion into profit While you may not get instantly rich from blogging it is something you can easily build upon in your spare time and expand into a full fledged career path In this book you will learn everything you need to know to get a huge advantage in blogging by standing on the shoulders of some of the most successful bloggers ever to put words on a page For less than a cup of coffee this book will literally teach you how to turn your passion into profit become your own boss and eventually leave the day job behind Don't wait click the Add to Cart button now and let's get started **Hospitality**, 2009 **PC Magazine**, 2008 **Android 6 for Programmers** Paul J.
