generations This leads to the main purpose of this essay consisting of explaining the meaning of purpose economy and sustainable development to business In short the purpose economy consists of the idea of having a business which has a green economy that helps the planet instead of destroying it Further the sustainability consists of three main aspects Social Ecological and Economic and aims on acting in an ethical way with the purpose of not harming future generations This will be properly illustrated by the help of using a real case the US clothing brand Patagonia Patagonia is an US clothing brand that was founded by Yvon Chouinard in the year 1973 and is known for producing sustainable outdoor clothing Since the whole clothing industry contributes up to 10% of the pollution which worsens the climate crisis this company illustrates a perfect example of how to be a leading model for other companies of running a sustainable business *The Virtue of Development Aid* Dominique Lambert,2015-06-08 Scientific Essay from the year 2011 in the subject Politics Topic Development Politics course Development Economics language English abstract Regarding development aid there are several ways which have been discussed and conducted in recent years This short paper gives a short overview over some of the most important strategies and ideas **The Athenaeum** ,1894 **The American Philatelist** ,2009 **Gardening Illustrated** ,1897 **British Library Annual Report and Accounts 2006/07** British Library,2007 35th annual report Annual Report and Accounts British Library,2004 **American Journalism Review** ,2012 *The Publishers Weekly* ,2009
