Digital Content Marketing in the Global Environment. Evaluation of Global Companies in the Chemical Industry Matthias Hebben, 2021-04-27 Master s Thesis from the year 2019 in the subject Business economics Business Management Corporate Governance grade 2.0 University of Applied Sciences Northwestern Switzerland language English abstract This Master thesis explores the phenomenon of Digital Content Marketing DCM by evaluating if content marketing and its tools have a positive impact on global companies in the chemical industry Rapid globalization and the development of new markets at an increasingly global scale have made DCM more important However global companies are facing new challenges like new technological developments and trends and a changing consumer landscape that requires new marketing approaches Strategies are required to overcome these challenges adopt DCM techniques and use current techniques to gain competitive advantages However there are still companies that have not included digital content in their marketing strategy Others have difficulties making their marketing content unique and powerful The main issue is often measuring the effectiveness of one s digital content to determine whether DCM has a positive impact

Uncontrolled Spread Scott Gottlieb, 2021-09-21 NEW YORK TIMES BESTSELLER Uncontrolled Spread is everything you d hope a smart and insightful account of what happened and currently the best guide to what needs to be done to avoid a future pandemic Wall Street Journal Informative and well paced The Guardian An intense ride through the pandemic with chilling details of what really happened It is also sprinkled with notes of true wisdom that may help all of us better prepare for the future

Sanjay Gupta MD chief medical correspondent CNN Physician and former FDA commissioner Scott Gottlieb asks Has America's COVID 19 catastrophe taught us anything In *Uncontrolled Spread* he shows how the coronavirus and its variants were able to trounce America's pandemic preparations and he outlines the steps that must be taken to protect against the next outbreak As the pandemic unfolded Gottlieb was in regular contact with all the key players in Congress the Trump administration and the drug and diagnostic industries He provides an inside account of how level after level of American government crumbled as the COVID 19 crisis advanced A system wide failure across government institutions left the nation blind to the threat and unable to mount an effective response We'd prepared for the wrong virus We failed to identify the contagion early enough and became overly reliant on costly and sometimes divisive tactics that couldn't fully slow the spread We never considered asymptomatic transmission and we assumed people would follow public health guidance Key bureaucracies like the CDC were hidebound and outmatched Weak political leadership aggravated these woes We didn't view a public health disaster as a threat to our national security Many of the woes sprung from the CDC which has very little real time reporting capability to inform us of Covid's twists and turns or assess our defenses The agency lacked an operational capacity and mindset to mobilize the kind of national response that was needed To guard against future pandemic risks we must remake the CDC and properly equip it to better confront crises We must also get our intelligence services more engaged in the global public health mission to gather information and uncover emerging risks before they hit our shores so we can head them off For this role our clandestine agencies have tools and capabilities that the CDC lacks *Uncontrolled Spread* argues we must fix our systems and prepare for a deadlier coronavirus variant a flu pandemic or whatever else nature or those wishing us harm may threaten us with Gottlieb outlines policies and investments that are essential to prepare the United States and the world for future threats *Guernsey Breeders' Journal*, 2002 Proceedings American Association for Artificial Intelligence, 2002
