Man vs. machine: Experimental evidence on the quality and perceptions of AI-generated research content Keenan, Michael, Koo, Jawoo, Mwangi, Christine, Karachiwalla, Naureen, Breisinger, Clemens, Kim, MinAh, 2025-02-24 Academic researchers want their research to be understood and used by non technical audiences but that requires communication that is more accessible in the form of non technical and shorter summaries The researcher must both signal the quality of the research and ensure that the content is salient by making it more readable AI tools can improve salience however they can also lead to ambiguity in the signal since true effort is then difficult to observe We implement an online factorial experiment providing non technical audiences with a blog on an academic paper and vary the actual author of the blog from the same paper human or ChatGPT and whether respondents are told the blog is written by a human or AI tool Even though AI generated blogs are objectively of higher quality they are rated lower but not if the author is disclosed as AI indicating that signaling is important and can be distorted by AI Use of the blog does not vary by experimental arm The findings suggest that provided disclosure statements are included researchers can potentially use AI to reduce effort costs

without compromising signaling or salience Academic researchers want their research to be understood and used by non technical audiences but that requires communication that is more accessible in the form of non technical and shorter summaries The researcher must both signal the quality of the research and ensure that the content is salient by making it more readable AI tools can improve salience however they can also lead to ambiguity in the signal since true effort is then difficult to observe We implement an online factorial experiment providing non technical audiences with a blog on an academic paper and vary the actual author of the blog from the same paper human or ChatGPT and whether respondents are told the blog is written by a human or AI tool Even though AI generated blogs are objectively of higher quality they are rated lower but not if the author is disclosed as AI indicating that signaling is important and can be distorted by AI Use of the blog does not vary by experimental arm The findings suggest that provided disclosure statements are included researchers can potentially use AI to reduce effort costs without compromising signaling or salience

Artful AI in Writing Instruction

Brett Vogelsinger, 2025-05-14 Discover strategies to use AI thoughtfully in every stage of the writing process without compromising creativity or critical thinking Feeling conflicted about integrating artificial intelligence AI into your writing instruction You're not alone In a world where AI generated text can seem like a writing teacher's enemy incorporating it into writing instruction may feel like an act of betrayal The advent of generative AI might feel like one more thing eroding students' capacity for deep thinking Artful AI in Writing Instruction offers strategies and lessons for middle and high school teachers to harness AI in a positive way integrating it into the writing process and evaluating the ethics of its usage Written by a full time high school teacher Brett Vogelsinger the book focuses on evergreen principles and ideas rather than specific AI tools providing concrete steps and lessons that teachers can implement without being technology experts Acknowledging the varying perspectives of teachers on AI in writing instruction from skepticism to enthusiasm Brett offers a human centered considered and ethical approach to using generative AI in the classroom Demonstrating how AI can be used artfully in the classroom to enhance students' writing skills and foster reflection on the writing process this book Provides standards aligned lessons that detail how AI can support instruction and assist students at each step of the writing process from prewriting through publishing Emphasizes how to use AI tools to mine authentic human ideas and enhance creativity in the classroom Aims to help teachers build a healthy relationship with AI technology and use it thoughtfully in their writing instruction Includes chapter features such as quotes from esteemed writers real teacher and student voices cautionary notes and Bot Thoughts entries of example AI output Artful AI in Writing Instruction is a book that explores technology with humility critiquing its drawbacks and harnessing its strengths in an effort to guide teachers on how to use AI to help students grow their thinking and their skills rather than bypassing that development

Drug Discovery and Development

Explained: Introductory Notes for the General Public Bruno Villoutreix, Jean-Luc Poyet, Katya Tsaïoun, 2024-12-11 Drug discovery and development involve complex processes highly integrated interdisciplinary research and collaborations

between academic groups and the private sector It is a long and resource intensive endeavor characterized by a high attrition rate Yet new strategies are being explored aiming at accelerating the development of novel treatments from the combination of artificial intelligence with cutting edge experimental approaches and the development of novel types of therapeutic agents to personalized medicine Because drug discovery and development is a vast field with many stakeholders and potential conflicts of interest it is important that the general public gains basic knowledge about the main concepts to be able to make informed healthcare decisions for themselves and family members understand discussions in the news and social networks or proposals from policymakers and politicians Furthermore people are directly affected by the field as patients seeking novel and better treatments as volunteers in clinical trials or as members of patient organizations Building public knowledge and understanding about the field of drug discovery and development will also help to address growing public concerns about how health data should be collected and used *The Startup Protocol* Sally Ann Frank,2024-03-01

There are lots of founders and lots of ideas floating around to help improve the delivery of healthcare services and positively affect the health of each of us as individuals as well as groups of patients afflicted by chronic or acute diseases Unfortunately many of these ideas never reach their full potential to improve patient outcomes or reduce costs of care Sometimes it s because the idea isn t feasible or scalable Sometimes it s because the market isn t ready or regulators aren t ready And sometimes it s just because the founder or founding team has a blind spot or two Not only do these hidden blind spots ensure their failure but in many cases with better planning or a greater more holistic understanding of the market forces the blind spot can be overcome Or better yet the founder can realize that their idea is doomed from the start and consider other better options to solve the problem they are attacking The goal of this book is to help founders and their teams identify blind spots and avoid the most common pitfalls of starting a digital health company Having spent time with founders VC companies and most importantly prospective digital health startups patterns have emerged regarding those startups that are successful and those that die an often slow and painful death While not a recipe for guaranteed success having a guidebook of sorts can help navigate the perils associated with building a digital health company and can very likely improve the odds of success The book will go through the typical life cycle of an early stage company from ideation to the first few customer deals and highlight best practices for tackling the challenges at each stage including What problem are you trying to solve And why are you trying to solve this problem Who will help you build the solution and company How will you build the solution How will you pitch your company How will you sell your solution And what does success look like to you your stakeholders and your customers American Lumberman ,1904 **The Economist** ,1843 **Black Enterprise** ,2008 *Hardware Age* ,1955-10 Farm Life and Agricultural Epitomist ,1911 Farm Journal and Country Gentleman ,1951 *The Times Index* ,2011 Indexes the Times Sunday times and magazine Times literary supplement Times educational supplement Times educational supplement Scotland and the Times higher education supplement **The American Interest** ,2007 The
