Environmental and Social Justice Issues
Peter Steidl,Paul M.W. Hackett,Ava Gordley-Smith,2025-03-31 This book uses a declarative mapping methodology to examine

a range of issues relating to environmental and social justice issues including climate change homelessness refugees food insecurity and racial and gender inequality The book explores how we can bring about change in order to have a meaningful impact on these problems using a literature based approach to identify and analyse this through the Declarative Mapping Method showing how this methodology can be used in the context of these issues The authors build a body of knowledge based upon published research to offer a template that may be used to bring about meaningful and appropriate changes in human behaviour in a variety of social ecological justice contexts In a world where most of the global challenges we face are a result of human behaviour the book applies psychological principles to gain a deeper understanding of our responses to world issues Case studies are included to show how specific strategies can be used to address problems and a holistic perspective offers strategies and insights into addressing these challenges This is an ideal text for researchers and students interested in environmental and social issues especially those looking to find ways to address them through research methodologies

Museums on the Web Karin de Wild, Nadezhda Povroznik, 2025-03-11 This book gathers insights from leading experts to explore the field of virtual museums It delves into pioneering initiatives from the past deepens our understanding of current museum practices on the Web and examines emerging possibilities for future developments The first virtual museums appeared on the World Wide Web in the early 1990s today digital collections and online activities are integral to museum practice In a remarkably short time online technologies have transformed how museums manage collections design exhibitions and interact with audiences As the digital landscape evolves with advancements like AI and the Semantic Web museums will continue to face new challenges How did we reach this point This book examines the legacies and rapid advancements of virtual museums to provide a deeper understanding of and better leverage for digital technologies This insightful volume is intended for scholars museum professionals and anyone interested in the digital transformation of museums It was originally published as a special issue of the journal *Internet Histories*
