A Teacher's Guide to Conversational AI David A. Joyner, 2024-05-27 A Teacher's Guide to Conversational AI explores the practical role that language based artificial intelligence tools play in classroom teaching learning experiences and student assessment Today's educators are well aware that conversational and generative AI chatbots intelligent tutoring systems large language models and more represent a complex new factor in teaching and learning This introductory primer offers comprehensive novice friendly guidance into the challenges and opportunities of incorporating AI into K 12 schools and college classes in ways that are appropriate nourishing to students and outcomes driven Opening with an informative overview of the foundational properties key terminology and ethical considerations of these tools the book offers a coherent and realistic vision of classrooms that are enhanced rather than stymied by AI systems This includes strategies for designing assessments that are conducive to students beneficial use of AI while mitigating overreliance or dishonesty using AI to generate lesson examples for student critique or custom content that reinforces course principles leveraging chatbots as a co instructor or a tutor a guide during student driven learning a virtual debate or brainstorming partner and a design project and creating course content lesson plans and activities expanded language and accessibility options and beyond Through the depth of understanding and applied approach provided in these chapters teachers and leaders in training and in service alongside private tutors college instructors and other educators will be better prepared to future proof their efforts to serve new generations of learners

Teaching Literature with Artificial Intelligence Eric D. Abrams, 2025-09-15 Teaching Literature with Artificial Intelligence explores the use of chatbots as participants in the teaching and learning of literature in high school and college classrooms while highlighting potentially outmoded norms and expectations of ELA instruction Artificial intelligence programs have profoundly altered the daily realities of teachers and students inspiring concern and opportunity alike Thought provoking theoretically grounded and full of replicable autoethnographic experiments this book offers real world examples of generative chatbot technologies in ELA classrooms positioning their accessibility and ubiquity as an incentive for critiquing and enriching traditional teaching and learning approaches Graduate students teaching faculty and scholars of teacher education English and literature education digital literacies and learning design will come away with a sharp critique of the purported affordances of chatbots as well as an incisive demonstration of AI as a classroom tool that supports rather than diminishes the meaningful learning critical thinking and agentive development of young people today

Revolutionizing English Education Clarice M. Moran, 2024-04-30 Artificial Intelligence or AI has seemingly burst into public consciousness with sudden vigor Previously

relinquished to computer science journals it erupted as the unrelenting topic of public media with most of the furor surrounding chatbots like ChatGPT. Although many educators began worrying about the implications of AI in student learning and creative activity, this book will demonstrate that AI can be harnessed as a source of inspiration and meaningful instruction. With an emphasis on useful classroom strategies as well as a consideration of the ethics of AI, this book seeks to start a conversation in this nascent area of research and practice. The primary focus is on the use of AI in the secondary English classroom, but educators in other disciplines will find plenty of ideas and information.

Reimagining Literacy in the Age of AI Jason D. DeHart, Suriati Abas, Raúl Alberto Mora, Damiana Gibbons Pyles, 2025-04-17 This volume assesses the critical intersection of artificial intelligence AI and literacy education. Drawing on the concept of living literacies, it explores the transformative potential of AI in literacy practices, offering a comprehensive narrative that bridges theoretical frameworks with practical applications. The book goes beyond the conventional understanding of AI literacy as mere technological proficiency. Instead, it positions AI as a catalyst for expansive, inclusive, and multifaceted literacy practices in the digital age. Scholars from different parts of the world examine how AI is not just changing what we read and write, but how we think, create, and express ourselves in a post-human context.

KEY FEATURES Explores AI literacy that encompasses critical thinking, ethical reasoning, and creative expression. Offers insights into the role of educators and researchers in cultivating AI literacy among learners. Discusses how creativity and identity intertwine with AI literacy. Suggests practical approaches to integrating AI into classroom instruction across different age groups. This timely work serves as an essential guide for educators, researchers, and learners by navigating the evolving terrain of literacy in a world increasingly augmented by AI.

Impact and implications of AI methods and tools for the future of education Kingsley Okoye, Samira Hosseini, Kamal Kant Hiran, Julius Nganji, 2024-06-07 The congruence of technology such as AI and its use for education can help transform the different pedagogical practices and future of education. Educational organizations like The UNESCO and The World Bank are already calling for research and development-oriented projects and creation mobilization of technological initiatives on how to re-imagine education and operationalize the use of digital technologies for its purpose: the Digitized Education. Those goals mean or include methodological approaches and wide adoption of the AI methods in fostering education in the classroom or learning environments. Also noteworthy is the fact that digitized education is now an inevitable and integral element to achieving the global sustainable development goals (SDGs), particularly the SDG4 that promotes quality of education.

The Future of Schooling in a GenAI World John Fischetti, Scott Imig, Kylie Shaw, Phuong Quyen Vo, 2025-09-30 The Future of Schooling in a GenAI World uniquely addresses conversations with those inventing GenAI, influencing policy, and implementing it in schools.
