

7 Quick Ways

Teachers Can Save Time with ChatGPT

01

Email Reminders

Try using the prompt "Write an email to remind families about our field trip to the museum next week."

02

Rewrite a Sentence

Worried that part of a task or email doesn't sound quite right? Use the prompt, "Rewrite this sentence so it is clearer."

03

Simplify Your Writing

Try the prompt, "Simplify this, so it is less confusing." Then paste the paragraph you wrote.

04

Explain Something

Use a prompt like "Explain the process of..." It can save time by giving you a starting point instead of writing entirely from scratch.

05

Titles & Descriptions

Do you make videos for your students? Try having ChatGPT write the video titles and descriptions for you.

06

Keyboard Shortcuts

Try asking ChatGPT to help you find shortcuts. Ask, "Make a list of keyboard shortcuts for Google Calendar."

07

Email Revisions

Write an email, and paste the text into ChatGPT with the prompt "Rewrite this email so it is friendly, clear, and professional."

Optimal Physical Activity across the Lifespan for People of All Abilities Ronald F. Zernicke ,David Arthur Hart, Humans evolved to be mobile within the boundary conditions of Earth and many biological and physiologic systems depend on mechanical loading to maintain integrity during growth and maturation during skeletal maturity and during the aging process These systems subscribe to the use it or lose it principle and thus require continual use to maintain integrity Given that premise considerable basic and clinical research efforts have been directed at optimizing the effectiveness and positive impact of exercise on sports performance and the well being of those with intact systems However those with disabilities or compromised abilities also benefit from exercise protocols and there exists a need to focus attention on these populations as well Given the myriad of biological and physiological systems that benefit from exercise and mechanical loading there is a need for all humans of varying abilities to not only maintain the integrity of their health but to attempt to optimize it recognizing that optimizing each person s health across the stages of the life cycle may require different exercise protocols dependent on stage of life sex genetics and other individualized variables For those with physical disabilities embracing and maintaining such exercise protocols may be challenging but expanded research translation of findings and integration of the outcomes into everyday life to enhance the health and well being of this significant population are needed going forward
