AI-Powered Marketing Jim Stephens, 2023-02-21 Being smart about business means knowing what to expect That means thinking ahead and preparing for the inevitable changes that will affect the way business is done This allows businesses to be resilient and thrive in a changing environment Digital marketing is no different In fact author Josh Kaufman discusses the value of comparison in his book The Personal MBA It means imagining possible futures and then preparing for them Let s say you have a large company that does well in a certain niche Maybe you own a business that sells whey protein shakes The mistake some big companies make is thinking they are too big to fail and sticking with it But what if another company comes along and makes a better protein shake for less money What if a new protein source is discovered What if a study showed whey protein was bad for us All of these things can happen and can seriously disrupt even the most established business However smart companies are already considering and preparing for these possibilities It s a comparative simulation you think about what s going to happen and then prepare for that eventuality As a digital marketer this means thinking about things that might change the face of marketing And the one thing that probably had the biggest impact of all AI AI and machine learning have the potential to completely change the face of internet marketing and even make many old strategies obsolete Only by preparing for these changes can you ensure that your website can maintain its position in the SERPs your ad campaigns remain profitable and your services remain relevant And a lot of this stuff isn t just speculation it s happening right now AI is already making waves though you may not have noticed it yet This affects how SEO works the tools and software we use and how ads are displayed AI is capable of thinking faster and smarter than any human and this is especially true for data driven internet marketing AI marketers can earn an unlimited amount Content per second doing the work of hundreds of people All of this content is perfectly adapted to the target group AI will rule Google This will

advance the entire business model AdWords will start And it will play new instruments that we never even dreamed of The uniqueness of digital marketing is just around the corner This book will help you prepare and explain a number of concepts AI vs machine learning How to do SEO now that Google is the first AI company Chatbots Programmatic advertising Great information RankBrain Digital assistant Data Science SQL Hidden semantic indexing The Future of Internet Marketing This book will give you a crystal ball to look into the future of internet marketing and make sure you are prepared for all of these changes as they come You end up being more prepared and in a better position than the other 99.9% of traders

Affiliate Marketing For Beginners Tim Murphy, 2020-12-29 If you were to ask a random user of the Internet what he or she thought Affiliate Marketing was he or she would likely claim that it was a way of making money online as an intermediary Here people make a commission from a sale or a referral when a visitor to his or her site clicks on a link that directs him or her to a product or page online However as much as there is a lot of truth there Affiliate Marketing does not only have to take place online For example affiliate marketing is also where a plumber gives a client a discount for referring him or her to a new client It is the same concept This kind of marketing happens a lot in the real world but people do not trace or coordinate it as much as is the case with online marketing Business owners can ask their customers how they came to know about them in an effort to learn about their client base but they cannot get as much information as they would be using online tracking The growing online market has made this type of marketing more popular and profitable It has also made it easier to grow and expand whatever type of business an individual is in with the help of numerous professional marketers who will not necessarily appear on their payroll Therefore while its history started long before the invention of the Internet the Internet has transformed it and made it widely available to the masses You will start by learning all about the ins and outs of affiliate marketing and what you need to get your feet wet in the marketing world You will then learn about the importance of choosing the right niche and how to find one that will provide you with a sustainable passive income stream for years to come From there you will learn the key steps to creating a website that will attract the right type of users as well as

the importance of SEO and how to ensure that your new website shows up in as many different sets of search results as possible Finally you will learn just what it takes to create the type of quality content that ensures people keeping back for more month after month and year after year Every effort was made to ensure it is full of as much useful information as possible please enjoy
