Emerging Topics and Questions in Infocommunication Technologies Sergey Balandin, Vladimir Deart, Valtteri Niemi, 2020-06-16 This collection of essays consists of selected papers presented at the 24th IEEE FRUCT conference It highlights the most pressing research topics in infocommunication technologies such as challenges in the development of next generation networks the architectures and design of innovative knowledge based systems and innovations in healthcare and eHealth

**Artificial Intelligence from Science Fiction to Reality** Emanuel Camilleri, 2025-11-03 Artificial Intelligence from Science Fiction to Reality examines various aspects starting with the evolution of human and artificial intelligence AI It places AI in its proper context and discusses non technical aspects such as philosophical and social issues The major challenge leaders are likely to encounter is deciding what functions are to be entrusted to AI and how humanity can exercise control over them The book also focuses on the hardware and software technology that support AI and the essential cyber security systems that are required to address the evolving AI threat landscape It examines centres for AI safety that are nonprofit research organisations which focus on the mitigation of AI risks by proposing solutions against threat actors The book discusses the knowledge based economy particularly Enterprise AI and examines the ethical and legal issues that emerge from the practical implications of AI While most governments have endorsed voluntary ethical and moral charters there is a reluctance to introduce binding legislative measures This reluctance is based on the premise that specific laws might hinder AI innovation Furthermore detailed private and public sector case studies are presented that demonstrate how AI applications may be successfully implemented according to a practical framework A detailed discussion about the implications for human development is presented The differences between key economic approaches such as knowledge based economy digital economy and automated economy are examined and how these will be impacted by AI in relation to job displacement data privacy and security and algorithmic bias Finally the book also examines the era beyond AI where organoid intelligence is emerging It explores future human development where humans could be turned into cyborgs with hi tech machine implants re growable limbs and nanotechnology that repair damaged tissue rejuvenating human cells leading to immortality

**Future Humans in Fiction and Film** Louisa MacKay Demerjian, Karen F. Stein, 2019-01-10 This book will appeal to everyone who reads science fiction or thinks about science and its impact on our lives It raises profound economic ethical political sociological and psychological questions It explores our

fears and fantasies as it examines a range of fictions films and TV programs that speculate about the possibilities of humans in the future The contributions here ask central questions that have provoked the creators and readers of science fiction since Mary Shelley inaugurated the genre with her novel *Frankenstein* What are the aims and limits of science and technology What are our responsibilities toward the products of our advancing science and technology What kinds of creatures will we produce or encounter in the future What rights will we grant to these creatures or more worryingly will they grant to us Do science and technology make us more civilized or more barbaric How should we treat each other Ultimately what does it mean to be human

Radical Reporting Sara I. James, 2025-01-31 If I were giving out an award for book of the year for internal audit professionals I would certainly award it to her outstanding manuscript *Radical Reporting Writing Better Audit Risk Compliance and Information Security Reports* Richard Chambers Former President and CEO The Institute of Internal Auditors Most people dread writing reports they also dread reading reports What they don't realize is that the techniques that make writing more readable make it more powerful This is especially relevant for professionals in areas such as audit risk compliance and information security This small volume provides the tools and techniques needed to improve reports It does so through addressing crucial concepts all too often overlooked in the familiar rush to perform tasks complete projects and meet deadlines These concepts the role of culture in communication the link between logic and language the importance of organizing thoughts before writing and how to achieve clarity may seem academic or theoretical They're not Unless writers understand their own thoughts actions and objectives they cannot hope to communicate them at all let alone clearly This second edition develops these points with additional material on critical thinking as well as the use of AI in reporting
