Build A Business Around Your Curiosity: Learn, Build, Share, Sell, Repeat Ahmed Musa, What if your curiosity wasn t a distraction but your greatest business asset This book is your permission slip to stop waiting for clarity and start building with what fascinates you Instead of following someone else s formula you ll discover how to turn your natural interests into powerful income engines without burning out faking expertise or locking yourself into one narrow niche You don t need to have it all figured out You don t need a perfect plan What you need is a loop learn something new build something small share it publicly offer it for sale and repeat That s how momentum builds That s how trust compounds And that s how modern creators are turning curiosity into profitable businesses without losing themselves in the process This approach works whether you re just getting started or reimagining your next chapter It honors the way creative minds naturally work driven by questions inspired by patterns and fueled by experimentation You ll learn how to validate ideas by sharing your process how to grow an audience by inviting them into your learning journey and how to make money by offering simple valuable products that emerge from what you ve already explored You don t need to commit to a single topic forever You just need to commit to the loop Curiosity leads to learning Learning leads to building Building leads to sharing Sharing leads to sales Sales fund your next round of curiosity The old business model says you need to know everything upfront The new business model says start with what you re curious about and let that be more than enough This is the book for creative minds ready to turn their questions into income and their interests into impact Learn Build Share Sell Repeat

Scientific Publishing Ecosystem Payal B. Joshi, Prathamesh P. Churi, Manoj Pandey, 2024-08-01 The book aims to converge the perspectives of authors, editors and reviewers to discuss modern scientific publishing practice and emerging concerns in the contemporary world. Authors, editors and reviewers form a triage in a publishing ecosystem which is witnessing a huge pressure due to changing evaluation criteria for career progression and grant funding. The major perspective of this book is to put forth the present-day emerging ills of the modern publishing system and sensitize the research fraternity, be it young researchers or established scientists, towards practicing good science and preserving the spirit of scientific discoveries. The edited book consists of three parts: viz Part I: Authors, Authorship and Scholarly Dissemination features ten chapters devoted to describe authorship issues and good publication practice, plagiarism concerns, preprints, open access, models, conflicting interests, rise of review papers, writing book reviews and assessing faculty beyond metrics. Part II: Editors, Editorial Desks and Issues of Scientific Misconduct features eight chapters devoted to discuss on issues of editorial misconduct, desk rejections, paper mills, letters to editors, image duplication, emerging ChatGPT in writing, reviewing spaces, citation cartels and retractions. Finally Part III: Reviewers and Developing Evaluators features five chapters devoted to discuss peer review as an idea, creating model, paying peer reviewers, training reviewers, peer review manipulations and peer review in age of AI. All chapters in the book are written by expert contributors of the field that provides a systematic approach of understanding various challenges, opportunities and ethical considerations of scientific publishing ecosystem. Most of the chapters have featured recent cases of scientific misconduct as examples to reflect scale of the problem. This book will serve as a reference to research practitioners in understanding assigning authorship on papers, modern-day publishing, collaboration, role of editors to serve journals in a holistic manner and ensuring fair peer review mechanisms.
