Money God Temples in Taiwan Fabian Graham, 2025-12-22 This book traces the history and

development of Taiwan's new money god tradition where by borrowing a small sum of blessed fortune money and returning it with interest within a year a temple's deity may intervene in the recipient's life bringing them unearned good luck and good fortune. Comprising an in-depth ethnography based on a decade of research the book explores Taiwan's money god tradition revealing its ritual culture and underlying beliefs thoroughly analyzed from sociological comparative historical geographic Taoist Buddhist metaphysical and philosophical contexts. Drawing on Taoist and Buddhist cosmology Chinese afterlife beliefs and a trust in the power of the gods to influence the material world the narrative explores the subjective nature of luck and fate of human desires choices and decisions and of individuals' subjective understandings of what the universe contains. These factors all contribute to the book's final question which through an exploration of human deity interactions investigates whether Jacques Derrida's true unreciprocal gift exists on a transcendent level amid the religious exchanges within Taiwan's money god tradition. This will be a valuable resource for students and scholars of Chinese religion and Taiwanese culture as well as those with an interest in East Asian philosophy and religion. *Computerworld*, 1984-11-12

Sanders, John D. Wood, 2024-03-11

Updated for a post Covid world the second edition of this groundbreaking book explains why becoming a Humachine enterprise is the only way forward for a company to maintain a competitive advantage in the age of artificial intelligence AI. The first edition of The Humachine offered a foundation for a new form of enterprise integrating AI technology and human resources to optimize the unique advantages possessed by each. Now in the face of the Great Resignation and botsourcing where an activity previously done by humans is replaced by technology thought leaders Sanders and Wood present a more positive and promising scenario where an enterprise recognizes human resources as an asset class that possesses skills that cannot be replaced by automation. Enlightened business leaders will look to create synergy between technology and people enabling the organization to maximize its capabilities by elevating the basis of decision making with closer to perfect information and rationality. This book provides a roadmap for how to do this and achieve collective intelligence at the enterprise level superintelligence. More specifically it answers these questions and more: Why must an enterprise achieve superintelligence as a competitive advantage in the age of AI? How can any organization achieve superintelligence by following the 4 I model? What is the step by step process an enterprise should follow in becoming a Humachine? What strategies can be used by enterprise leaders to futureproof the Humachine against uncertainty? All business leaders executives and managers at companies wanting to use AI and technology to survive and thrive in this new age and students of analytics and decision making will value this thought provoking and practical book rich with case studies. **Monthly Catalogue, United States Public Documents**, 1994-12 *Monthly Catalog of United States Government Publications*
