Fooled Again Mark Crispin Miller, 2007-06-12 For Republicans the 2004 presidential election was little short of miraculous Behind in the Electoral College tally in the days leading up to the election behind even on the very afternoon of the vote the Bush ticket staged a stunning comeback The exit polls usually so reliable turned out to be wrong by an unprecedented 5 percent in the swing states Conservatives argued and the media agreed that moral values had made the difference In his new book renowned critic and political commentator Mark Crispin Miller argues that it wasn't moral values that swung the election it was theft While the greatest body of evidence comes from the key state of Ohio where the Democratic staff of the House Judiciary Committee found an extraordinary onslaught of Republican engineered vote suppression election day irregularities old fashioned intimidation tactics and illegal counting procedures similar practices and occasionally worse ones were applied in Florida Oregon Pennsylvania New Mexico Nevada Arizona and even New York A huge array of anomalies improper practices and blatant violations of the law all by a truly remarkable coincidence happened to swing in the Bush ticket's favor This pattern not one overwhelming fraud but thousands of little ones is in Miller's view the new Republican electoral strategy This incendiary new book presents massive documentation that the election was stolen and describes the mind set among

both the major parties and the media that could permit it to happen again Cruel and Unusual Mark Crispin Miller, 2004 In *Cruel and Unusual* Mark Crispin Miller exposes what he calls the Bush Republicans contempt for democratic practice their bullying religiosity their reckless militarism and their apocalyptic views of the economy and the planet **Media Spectacle and the Crisis of Democracy** Douglas Kellner, 2015-12-03 Douglas Kellner's *Media Spectacle and the Crisis of Democracy* 9 11 the War on Iraq and Election 2004 investigates the role of the media in the momentous political events of the past four years Beginning with the role of the media in contested election of 2000 Kellner examines how corporate media ownership and concentration linked with a rightward shift of establishment media have disadvantaged the Democrats and benefited George W Bush and the Republicans Exploring the role of media spectacle in the 9 11 attacks and subsequent Terror War in Afghanistan and Iraq Kellner documents the centrality of media politics in advancing foreign policy agendas and militarism Building on his analysis in *Media Spectacle* Routledge 2003 Kellner demonstrates in detail how conflicting political forces ranging from Al Qaeda to the Bush administration construct media spectacles to advance their politics Two chapters critically engage the role of the media in the buildup to the Iraq war and the media centric nature of Bush's Iraq invasion and occupation Final chapters delineate the role of the media in the highly contested and significant 2004 election campaign that many believe to be one of the key political struggles of the contemporary era Criticizing Bush's unilateralism Kellner argues for a multilateral and cosmopolitan globalization and the need for democratic media to help overcome the current crisis of democracy in the United States *America in Conflict* Rogene A. Buchholz, 2007-05-22 This book analyzes the values divide in modern America by examining the different values at stake in major policy areas such as the war in Iraq where traditional reasons for going to war have been usurped by the Bush doctrine of preemption The involvement of the religious right in politics also involves value issues including the separation of church and state Other values concerned in the divide such as a balance between freedom and security in our response to terrorism on American soil fairness and equity in our taxation policies and the values at stake in solving our environmental problems are explored in depth The final section has a chapter devoted to the revitalization of democracy in America and a concluding chapter discussing what the second term of the Bush administration means to America Politics of Fear Manuel G. Gonzales, Richard Delgado, 2015-12-03 Lucidly written widely informed and uncompromisingly honest a valuable expose Michael Parenti Documents the stunning success of a network of wealthy donors and corporations in creating and sustaining a set of think tanks legal action groups and media strategies Gary Orfield Harvard University What explains the electoral success of Republicans particularly of the ascendant neoconservatives who now dominate the Party Based on a thorough and up to date examination of the New Right over twenty five years The *Politics of Fear* proposes some provocative answers including globalization new technologies and a far reaching network of right wing think tanks and foundations As the authors show all have opened the doors to a new politics of fear successfully waged by the neoconservatives By manipulating insecurity the New Right has created an extraordinarily successful populist

conservative movement Utilizing extensive documentation the authors argue convincingly that the fear of immigrants and racial minorities has served as the most effective tactic in the GOP arsenal while their approach also implicates gays feminists and terrorists The book explains why Americans have willingly supported a party that promises them security just as it delivers greater economic and political insecurity The authors argue that despite their striking political successes neoconservatives have delivered to voters a set of policies harmful to working Americans in the way of regressive tax measures military exploits tort reform deregulation and environmental destruction **Cinema Wars** Douglas M.

Kellner,2011-09-13 Cinema Wars explores the intersection of film politics and US culture and society through a bold critical analysis of the films TV shows and documentaries produced in the early 2000s Offers a thought provoking depiction of Hollywood film as a contested terrain between conservative and liberal forces Films and documentaries discussed include Black Hawk Down The Dark Knight Star Wars Syriana WALL E Fahrenheit 9 11 and other Michael Moore documentaries amongst others Explores how some films in this era supported the Bush Cheney regime while others criticized the administration openly or otherwise Investigates Hollywood s treatment of a range of hot topics from terrorism and environmental crisis to the Iraq war and the culture wars of the 2000s Shows how Hollywood film in the 2000s brought to life a vibrant array of social protest and helped create cultural conditions to elect Barack Obama **Misunderestimated &**

Overunderappreciated Mark Crispin Miller,2007 *The Presidency of George W. Bush* John Robert Greene,2021-10-15 The Presidency of George W Bush is the first balanced academic study to analyze the entirety of his presidency domestic social economic and national security policies as well as the administration s response to 9 11 and the subsequent War on Terror In so doing John Robert Greene argues persuasively that the judgment of most scholars that the Bush administration was a complete failure has been made in haste and without the benefit of primary sources This book is the first scholarly work to make wide use of the documents at the George W Bush Presidential Library many of which have only recently been made available to researchers through the Freedom of Information Act John Robert Greene offers a balanced assessment and nuanced conclusions supported by documentary evidence Yet in doing so he does not absolve the Bush administration of its shortcomings The Presidency of George W Bush shows that the administration could be vindictive as demonstrated by the Plame Wilson affair and the firing of the US attorneys It all too often moved too slowly as shown by the National Security Council s lethargic handling of terrorism pre 9 11 the failed attempt to revise Social Security and the sluggish reaction to Hurricane Katrina It was an administration that accepted and acted on the highly suspect theory of the unitary presidency as advocated by Dick Cheney and accepted by the president On the other side of the balance sheet however the evidence also makes it eminently clear that the Bush administration was responsible for many positive achievements No Child Left Behind set the nation on the road toward affecting serious educational reform In healthcare reform the Bush administration both strengthened the Medicare system and extended its benefits for millions of Americans And Bush did more to combat the

worldwide scourge of AIDS particularly in Africa than any other president In sum the actions of this presidency continue to affect the presidencies of each of his successors as well as the trajectory of world history to the present day **Elite Deviance** David R. qualitative inquiry over the past two decades As perhaps the leading proponent of this style of research Denzin has led the way toward more performative writing toward conceptualizing research in terms of social justice toward inclusion of indigenous voices and toward new models of interpretation and representation In these 13 essays which originally appeared in a wide variety of sources and are edited and updated here the author traces how these changes have transformed qualitative practice in recent years In an era when qualitative inquiry is under fire from conservative governmental and academic bodies he points the way toward the future including a renewed dialogue on paradigmatic pluralism Allegations of Selective Prosecution United States. 9/11 and American Empire, Volume 1 David Ray Griffin,Peter Dale Scott,Kevin Barrett,John B. Cobb,Sandra B. Lubarsky,2007 Were the military and the FAA really that incompetent Were our intelligence gathering agencies really in the dark about 9 11 How could so much go wrong at once in the world s strongest and most technologically sophisticated country Both the government and the mainstream media have tried to portray the 9 11 truth movement as led by people who can be dismissed as conspiracy theorists This volume shows this caricature to be untrue Coming from different academic disciplines as well as from different parts of the world the authors are united In the conviction that the official story about 9 11 is a huge deception manufactured to extend Imperial control at home and abroad **Divine Destruction** Stephenie Hendricks,2005 A simple investigation into environmental policy in the Sierra Nevadas turned out to be a far bigger story Bush s environmental policy is being driven by biblical fundamentalists who believe exhausting natural resources will hasten the Second Coming of Jesus Christ *The Blood Never Dried* John Newsinger,2006 Newsinger challenges the claim that the British Empire was a kinder gentler empire and suggests that the description rogue state is more fitting In a wonderful popular history of key episodes in British imperial history he illustrates the darker side of the glory years Britain s deep involvement in the Chinese opium trade Gladstone s maiden parliamentary speech defending his family s slave plantation in Jamaica paying particular attention to the strenuous efforts of the colonised to free themselves of the motherland s baleful rule **Loser Take All** Mark Crispin Miller,2008 Among the subjects treated here are the myth of George Bush s victory in Florida in 2000 and FOX News s key role in propagating it Senator Max Cleland s dubious defeat in Georgia in 2002 Bush s re election in 2004 including evidence of systematic fraud outside of Ohio startling evidence of fraud committed in the 2006 midterm elections which the Democrats appear to have won by a far larger margin than officially reported and crucially evidence that the Republicans will attempt to steal the presidential election in 2008 The Publishers Weekly ,2005
