Cuba's Forgotten Decade Anna Clayfield, Emily J. Kirk, Isabel Story, 2018-08-24 The 1970s have largely been overlooked in scholarly studies of the Cuban Revolution or at the very least dismissed simply as a period of Sovietization characterized by widespread bureaucratization institutionalization and adherence to Soviet orthodoxy Consequently scant research exists that examines the major changes that took place across the decade and their role in determining the course of the Revolution This book provides for the first time a comprehensive assessment of the 1970s which challenges prevailing interpretations Drawing from multidisciplinary perspectives and exploring a range of areas including politics international relations culture education and healthcare its contributing authors demonstrate that the decade was a time of intense transformation which proved pivotal to the development of the Revolution Indeed many of the ideas approaches policies and legislation developed and tested during the 1970s maintain a very visible legacy in contemporary Cuba In highlighting the complexity of the 1970s this volume ultimately aims to contribute to a greater understanding of the Cuban Revolution and how it chooses to face the challenges of the twenty first century

[Political Change in the Third World](#) Charles Andrain, 2012-07-26 In this informative and highly readable book first published in 1988 Charles Andrain explores the ways in which public policies and socio political beliefs and structures cause political change in the Third World The author examines 3 types of political change 1 transitions in political leaders and their policies 2 fundamental transformations in political structures policy priorities and political strategies for dealing with policy issues and 3 the impact of economic

education and health care policies on the society itself including changes in unemployment inflation economic growth literacy and birth and death rates In the first part of the book Professor Andrain presents a general overview of political change in the Third World explaining how different models of political systems explain the dynamics of political events in Latin America Asia Africa and the Middle East In the second part of the book he then applies these models to specific changes in five developing nations Vietnam Cuba Chile Nigeria and Iran The book is unique in its careful blending of a policy focus with a structural analysis of nation states domestic social groups and international institutions in the often turbulent regions of the developing world It thus provides a very useful systematic approach to political developments in the Third World that will be welcomed by students faculty and general readers

Castro Sebastian Balfour,2013-11-04 The story of Fidel Castro has few parallels in contemporary history None of the outstanding Third World leaders of the twentieth century played such a prominent and restless part on the international stage and none survived as head of state for as long Over almost 50 years he was one of the most controversial political figures in the world and his legacy has yet to be fully evaluated Some of his most cherished plans were realized and are a model for many Third World countries Yet despite enormous sacrifices by Cubans his grand vision remains unfulfilled and its continued pursuit is full of risks The fully revised third edition of this respected political biography provides the first full retrospect of Castro s remarkable career right up to his illness and withdrawal from power in February 2008 incorporating analysis of the renewed crackdown on dissidents in Cuba from the mid 1990s on the major geopolitical reconfiguration of Latin America in the late 1990s and the new Cuban Venezuelan relationship under Hugo Chavez the Helms Burton Act and the continuing US embargo The Cuban economy in the first decade of the new millennium It also revisits earlier events in Castro s career for instance the various assassination plots against him the Cuban missile crisis and the Soviet invasion of Czechoslovakia in the light of documents released by Cuba and the US over the past decade and a half
