**The Cuba Project** Fabián Escalante Font, 2004 The secret war the CIA lost New updated edition *Cuba at the Crossroads* Philip Brenner, John M. Kirk, William M. LeoGrande, 2020-03-10 Cuba has undergone dramatic changes since the collapse of European communism The loss of economic aid and preferential trade with the Soviet Union and other Eastern bloc countries forced the Cuban government to search out new ways of organizing the domestic economy and new commercial relations in an international system dominated by market economies The resulting economic reforms have reverberated through Cuban society and politics recreating social inequalities unknown since the 1950s and confronting the political system with unprecedented new challenges The resulting ferment is increasingly evident in Cuban cultural expression and the responses to adversity and scarcity have reshaped Cuban social relations Cuba today faces new challenges with the transition to a new president Miguel Díaz Canel and renewed hostility from the Trump administration This timely book provides a balanced and deeply knowledgeable introduction to Cuba today This concise overview focuses on Cuba since Raúl Castro stepped down as president bringing together leading scholars to analyze politics economics foreign policy and society in present day Cuba Ideally suited for students and all those seeking to understand this still contentious and controversial island the book includes a substantive introduction setting the historical context as well as a chronology and primary source documents

**Handbook of Contemporary Cuba** Mauricio A. Font, Carlos Riobo, 2015-11-17 Cuban studies is a highly dynamic field shaped by the country's distinctive political and economic circumstances Mauricio A Font and Carlos Riobo offer an up to date and comprehensive survey offering the latest research available from a broad array of disciplines and perspectives The Handbook of Contemporary Cuba brings contributions from leading scholars from the United States Cuba Europe and other world regions and introduces the reader to the key literature in the field in relation to rapidly changing events on the island and in global political and economic affairs It also addresses timely developments in Cuban civil society and human rights The guide also presents economic models and forecasts as well as analyses of the recent pivotal Sixth Congress of the Communist Party of Cuba For students scholars and experts in government it is a vital addition to any collection on Latin American studies or global politics

**Handbook on Cuban History, Literature, and the Arts** Mauricio A. Font, Araceli Tinajero, 2016-03-02 First Published in 2016 If scholarship on Cuban studies after the 1959 revolution focused on the historical and cultural aspects of the construction of a socialist order the post 1989 crisis of socialism in Central and Eastern Europe raised questions about the island's state as a socialist model The scholarly gaze gradually began to focus on possibilities for alternative transformations at various levels of social life rather than on the deepening of traditional twentieth century state socialism This volume explores the newly emergent themes and debates about Cuban society and history

*Cuba*, 1922 [Shadow Warfare](#) Larry Hancock, Stuart Wexler, 2014-02-24 Contrary to its contemporary image deniable covert operations are not something new Such activities have been ordered by every

president and every administration since the Second World War In many instances covert operations have relied on surrogates with American personnel involved only at a distance insulated by layers of deniability Shadow Warfare traces the evolution of these covert operations detailing the tactics and tools used from the Truman era through those of the contemporary Obama Administrations It also explores the personalities and careers of many of the most noted shadow warriors of the past sixty years tracing the decade long relationship between the CIA and the military Shadow Warfare presents a balanced non polemic exploration of American secret warfare detailing its patterns consequences and collateral damage and presenting its successes as well as failures Shadow Wars explores why every president from Franklin Roosevelt on felt compelled to turn to secret deniable military action It also delves into the political dynamic of the president s relationship with Congress and the fact that despite decades of combat the U S Congress has chosen not to exercise its responsibility to declare a single state of war even for extended and highly visible combat **The Cuba Review** ,1924
