The Crumhorn and Other Renaissance Windcap Instruments Barra Boydell, 1982 **A Performer's Guide to Medieval Music** Ross W. Duffin, 2000 A Performer's Guide to Medieval Music is an essential compilation of essays on all aspects of medieval music performance with 40 essays by experts on everything from repertoire voices and instruments to basic theory This concise readable guide has proven indispensable to performers and scholars of medieval music *Music as Concept and Practice in the Late Middle Ages* Reinhard Strohm, Bonnie J. Blackburn, 2001 Music as Concept and Practice in the Late Middle Ages is an entirely new addition to the New Oxford History of Music series rather than a revision of the volume's predecessor published in 1960 It takes account not only of the developments in late medieval music scholarship during the latter decades of the twentieth century but also of the experience gained through significant changes in the performance practice of the late medieval repertory witnessed during this period All the chapters include areas of discussion whose coverage in the series hitherto has been either wholly lacking or at best marginal Muslim and Jewish musical traditions of the Middle Ages late medieval office chant medieval dance music musical instruments in society music in Central and Eastern Europe music theory of the fourteenth and fifteenth centuries music and early Renaissance humanism The first chapter and the last three present the conceptualization of music in speculative theory philosophy compositional and didactic practice and musical historiography Four chapters and part of the first illustrate important musical repertoires and genres as they were developed within diverse societies The eight authors all of them with a long standing interest in their respective subjects have created through their collaboration a blend of mature scholarship and original investigation The volume's novelty of approach and content is complemented by a firm anchorage in the specialist literature and documentary source material Today no single view of the Middle Ages can be acceptable to the musician or to the historian The present volume which addresses itself to both provides solid information on formerly marginal themes and advocates further exploration of the other Middle Ages **The Crumhorn** Kenton Terry Meyer, 1983 **The Renaissance Wind Band and Wind Ensemble** David Whitwell, 1983 **Performance Practice** Roland Jackson, 2013-10-23 Performance practice is the study of how music was performed over the centuries both by its originators the composers and performers who introduced the works and later by revivalists This first of its kind Dictionary offers entries on composers musicians performers technical terms performance centers musical instruments and genres all aimed at elucidating issues in performance practice This A-Z guide will help students scholars and listeners understand how musical works were originally performed and subsequently changed over the centuries Compiled by a leading scholar in the field this work will serve as both a point of entry for beginners as well as a roadmap for advanced scholarship in the field *Journal of Renaissance and Baroque Music* Armen Carapetyan, 1992 *The History and Literature of the Wind Band and Wind Ensemble: The Renaissance wind band and wind ensemble* David Whitwell, 1983 *Performing Medieval and Renaissance Music* Elizabeth
