Cruz Huellas:

The Road to the Land of the Mother of God Stephen G. Perz, Jorge Luis Castillo Hurtado, 2023-05 The Interoceanic Highway is many things to many people an emblematic project during a period focused on integration a dream realized for an isolated region a symbol of the profound fragility of state institutions a key cause of political corruption and a major driver of ecological and cultural devastation This highway links the Andean highlands with the Amazonian lowlands in southern Peru offering an outlet for Brazil's emergent economy While it finally brought an end to the isolation of Madre de Dios and other parts of southern Peru and the western Amazon it was made possible by political corruption revealed in the Lava Jato scandal and it permitted the spread of criminal business activities But the Interoceanic Highway's deeper history must be appreciated in order to fully understand why it was built and the impacts it has generated *The Road to the Land of the Mother of God* explores more than five hundred years of the history of Peru's Interoceanic Highway showing how the purposes portrayals and importance of roads change fundamentally over time and thus how roads bring significantly more impacts and costs than their advocates and critics generally anticipate By taking a deeper look at infrastructure history Stephen G Perz and Jorge Luis Castillo Hurtado portray infrastructure as an integrative optic for understanding changes in local livelihoods regional development and social conflicts

Homeless Tongues Monique Balbuena, 2016-07-27 This book examines a group of multicultural Jewish poets to address the issue of multilingualism within a context of minor languages and literatures nationalism and diaspora It introduces three writers working in minor or threatened languages who challenge the usual consensus of Jewish literature Algerian Sadia Levy Israeli Margalit Matitiah and Argentine Juan Gelman Each of them Levy in French and Hebrew Matitiah in Hebrew and Ladino and Gelman in Spanish and Ladino expresses a hybrid or composite Sephardic identity through a strategic choice of competing languages and intertexts Monique R Balbuena's close literary readings of their works which are mostly unknown in the United States are strongly grounded in their social and historical context Her focus on contemporary rather than classic Ladino poetry and her argument for the inclusion of Sephardic production in the canon of Jewish literature make *Homeless Tongues* a timely and unusual intervention

Lozana andaluza 1530 an important precedent of the picaresque novel Both works were written during the height of the Inquisition when the only relatively safe way for New Christian writers of Jewish extraction like Rojas and Delicado to express what they felt about the discrimination they suffered and their doubts regarding the faith that had been forced upon their ancestors was in a covert indirect manner Some scholars have detected this subversive element in Rojas and Delicado s corrosive view of the Christian societies in which they lived but this book goes far beyond such impressionism showing through abundant textual evidence that these two authors used superficial bawdiness and claims regarding the morality of their respective works as cover to encode attacks against the central dogmas of Christianity the Annunciation the Virgin Birth the Incarnation and the Holy Trinity This book which will generate controversy among Hispanists many of whom have refused to examine these works for non Catholic views will be of interest not only to students and scholars of Spanish literature but also to those involved in Jewish studies Medieval European history and cultural studies
