

Cryptic Campaigns

**Republican Party (U.S. : 1854-).
National committee, 1920-1924**

Cryptic Campaigns:

The ^AOxford Handbook of Political Consumerism Magnus Boström, Michele Micheletti, Peter Oosterveer, 2019-01-25

This volume offers the first comprehensive theoretical and comparative overview of the ways in which the market becomes a political arena. It maps the four major forms of political consumerism: boycotting, buycotting, spending to show support, and lifestyle politics, and discursive actions such as culture jamming. Chapters by leading scholars examine political consumerism in different locations and industry sectors and in consideration of environmental and human rights problems, political events, and the ethics of production and manufacturing practices.

Lost Brigid Cherry, 2021-04-27 From its opening moments featuring the aftermath of a plane crash on a tropical island, the television series *Lost* (2004–2010) became one of the most intriguing and talked-about programmes in the era of digital media. This contribution to the *Constellations* series is the first full-length account of *Lost* and explores in detail what made this series both a popular hit with critics and the public as quality or must-see TV and also a series accruing intense fan scrutiny as cult telefantasy. *Lost* is discussed in terms of its generic hybridity and in particular how it incorporates and reframes familiar tropes of science fiction in the context of a *Survivor*-style reality TV plot on the one hand and as a mystery box of extremely complex hermeneutic codes and hyperdiegesis on the other. Further, it explores the ways in which *Lost* uses science-fictional narrative approaches to the intersections between themes of gender identity, community, science, faith, and philosophic thought. The book also discusses the series' relationship with its narrative extensions in online games, merchandise, secondary texts, and paratexts. *Constellations: Lost* is thus an important retrospective examination of a significant television series that was also a pioneering transmedia text.

China, Hong Kong, Taiwan, Inc. Willem Van Kemenade, 2010-12-01 On the eve of June 30, Hong Kong was officially passed back to China. This event will mark what Willem van Kemenade sees as the start of an increasingly problematic and even dangerous reintegration of the old Chinese empire into a new world superpower. Since the early 1980s, investment money has been pouring into China from Hong Kong, and trade has escalated at a rocket's pace. A few years later, the same pattern began between China and Taiwan. The combination of Hong Kong, Taiwan, management, financial, and export know-how with China's inexhaustible pool of cheap labor and land has enabled China in one decade to leap from an impoverished revolutionary state to a major international trading power. This economic boom, in conjunction with the violation of intellectual property rights, systematic tax fraud, and the corruption of the police force, has helped shape the socialist market economy, China's third way, and a new mix of old-fashioned Soviet Communism and East Asian capitalism. The formal addition of Hong Kong will add to this mixture the democratic structures set in place by the British. And as China moves to reclaim Taiwan, the process has already begun: it will be incorporating a rival Chinese sub-nation with a fully election-based political system and a powerful independence movement. Can such a reunified China resist the spiritual pollution of democratic values, human rights, and political freedom? Will it become the first depoliticized corporatist superpower? What are

the prospects that reunification will be peaceful Van Kamen's portrait of the true internal power structures of the three Chinas provides our clearest look yet at the fastest rising new empire in the world today **American Pop** Bob Batchelor, 2008-12-30 Pop culture is the heart and soul of America a unifying bridge across time bringing together generations of diverse backgrounds Whether looking at the bright lights of the Jazz Age in the 1920s the sexual and the rock n roll revolution of the 1960s or the thriving social networking websites of today each period in America's cultural history develops its own unique take on the qualities define our lives American Pop Popular Culture Decade by Decade is the most comprehensive reference on American popular culture by decade ever assembled beginning with the 1900s up through today The four volume set examines the fascinating trends across decades and eras by shedding light on the experiences of Americans young and old rich and poor along with the influences of arts entertainment sports and other cultural forces Whether a pop culture aficionado or a student new to the topic American Pop provides readers with an engaging look at American culture broken down into discrete segments as well as analysis that gives insight into societal movements trends fads and events that propelled the era and the nation In depth chapters trace the evolution of pop culture in 11 key categories Key Events in American Life Advertising Architecture Books Newspapers Magazines and Comics Entertainment Fashion Food Music Sports and Leisure Activities Travel and Visual Arts Coverage includes How Others See Us Controversies and scandals Social and cultural movements Trends and fads Key icons and Classroom resources Designed to meet the high demand for resources that help students study American history and culture by the decade this one stop reference provides readers with a broad and interdisciplinary overview of the numerous aspects of popular culture in our country Thoughtful examination of our rich and often tumultuous popular history illustrated with hundreds of historical and contemporary photos makes this the ideal source to turn to for ready reference or research **Kremlin Rising** Peter Baker, Susan Glasser, 2005-06-07 In the tradition of Hedrick Smith's The Russians Robert G Kaiser's Russia The People and the Power and David Remnick's Lenin's Tomb comes an eloquent and eye opening chronicle of Vladimir Putin's Russia from this generation's leading Moscow correspondents With the 1991 collapse of the Soviet Union Russia launched itself on a fitful transition to Western style democracy But a decade later Boris Yeltsin's handpicked successor Vladimir Putin a childhood hooligan turned KGB officer who rose from nowhere determined to restore the order of the Soviet past resolved to bring an end to the revolution Kremlin Rising goes behind the scenes of contemporary Russia to reveal the culmination of Project Putin the secret plot to reconsolidate power in the Kremlin During their four years as Moscow bureau chiefs for The Washington Post Peter Baker and Susan Glasser witnessed firsthand the methodical campaign to reverse the post Soviet revolution and transform Russia back into an authoritarian state Their gripping narrative moves from the unlikely rise of Putin through the key moments of his tenure that re centralized power into his hands from his decision to take over Russia's only independent television network to the Moscow theater siege of 2002 to the managed democracy elections of 2003 and

2004 to the horrific slaughter of Beslan's schoolchildren in 2004 recounting a four year period that has changed the direction of modern Russia But the authors also go beyond the politics to draw a moving and vivid portrait of the Russian people they encountered both those who have prospered and those barely surviving and show how the political flux has shaped individual lives Opening a window to a country on the brink where behind the gleaming new shopping malls all things Soviet are chic again and even high school students wonder if Lenin was right after all *Kremlin Rising* features the personal stories of Russians at all levels of society including frightened army deserters an imprisoned oil billionaire Chechen villagers a trendy Moscow restaurant king a reluctant underwear salesman and anguished AIDS patients in Siberia With shrewd reporting and unprecedented access to Putin's insiders *Kremlin Rising* offers both unsettling new revelations about Russia's leader and a compelling inside look at life in the land that he is building As the first major book on Russia in years it is an extraordinary contribution to our understanding of the country and promises to shape the debate about Russia its uncertain future and its relationship with the United States
