Cuba Clearing Perilous Waters:

Cuba: Clearing Perilous Waters?, 1996 This report assesses Cuba's current political dynamics and economic prospects and where Cuba is headed. It analyzes the regime's major civilian and military leaders and institutions, the civil society groups emerging outside the regime, and the respective roles of all these actors in the years ahead. It then evaluates how current U.S. policy and the options of tightening or lifting the embargo might hasten or hinder the transition toward a more democratic, market-oriented Cuba. Although it cautions that the final outcome of Cuba's current transition will be determined internally rather than by U.S. policy, the report concludes by proposing a new bolder U.S. strategy to help accelerate the process of fundamental change on the island.

Cuban Communism Irving Louis Horowitz, Jaime Suchlicki, 2003 Cuban Communism remains like its previous ten editions an important contribution to the field of Cuban Studies. It includes many useful chronological facts as well as a selection of Fidel Castro's speeches which are interesting and informative for any reader interested in the island. Maria Gropas, Department of Social Anthropology, University of Cambridge. This new 11th edition of a classic text comes to be known as the bible of Cuban Studies, emphasizes two key issues of the twenty-first century: First, transition concerns in a world without Castro, and second, the continuing embargo of Cuba by the United States in the aftermath of a major change in the presidency. Cuban Communism has been updated to take account of changes in the 44 years of Castro's rule since seizing power in 1959. In addition to articles and essays that represent new developments in Cuba, the work boasts a database upgrade that makes it more important to students, scholars, and researchers. The volume has expanded the section on future prospects for civil society and democracy in a post-Castro environment, including Regime Change in Cuba by Eusebio Mujal Leon and Joshua W. Busby, Transition Scenarios by Randolph H. Pherson, and A Policy Conundrum over Cuba by Edward Gonzalez. It also contains a chronology of events from 1959 through 2002. Finally, the new work contains a carefully constructed Who's Who of important players in Cuba and the regime during the Castro period up to the present. Other articles new to the 11th edition of Cuban Communism are by Ernesto Betancourt, Cuba's Balance of Payment Gap, Carmelo Mesa Lago, The Cuban Economy From 1999-2001, Taylor Boas, The Internet and U.S. Policy toward Cuba, Aldo M. Leiva, Environmental Technology Transfer and Foreign Investment, Moises Asis, Judaism in Cuba, Wolf Grabendorff, A View from the European Union. More than ever, it is a must volume for those
