contemporary artists as well as the nature and implications of the various modern movements      *Cubism and Its Histories*  
David Cottingham,2004 Cubism was the most influential artistic movement that emerged in the twentieth century Yet just  
what cubism was or stood for at the time of its emergence is still in dispute while the explanations offered for its importance  
for twentieth century art and its legacy for the present are bewildering in their variety This fascinating book offers a way  
beyond this confusion a narrative of its beginnings consolidation and dissemination that takes into account not only what the  
style and the movement signified at the time of its emergence but also the principal writings through which cubism s  
significance for modernism has been established Visually stunning with over 100 illustrations this is an essential work for all  
students and teachers of modern art history      Cubism & la Section D'or Robert Stanley Johnson,1991      **Revenge of the

artist Michael Asher including notes proposals exhibition statements and letters to curators and critics most published here  
for the first time The California conceptual artist Michael Asher 1943 2012 was known for rigorous site specificity and  
pioneering institutional critique His decades of teaching at CalArts influenced generations of artists Much of Asher s artistic  
practice was devoted to creating works that had no lasting material presence and often responded to the material social or  
ideological context of a situation Because most of Asher s artworks have ceased to exist his writings about them have special  
significance Public Knowledge collects writings by Asher about his work including preliminary notes and ideas project  
proposals exhibition statements and letters to curators and critics most of which have never been previously published Asher  
gave few interviews didn t write art criticism and rarely published extensive accounts of his own work Yet writing was  
central to his artistic practice serving as a tool for working out ideas negotiating institutional parameters and describing  
thought processes In these texts he considers writing and documentation discusses artistic practice offers notes for gallery

and museum talks presents artist statements for exhibition goers describes individual works and their situational context and reflects on teaching and art education Among other things Asher provides his definition of site specificity addresses the function of art in public space and analyzes the intersection of teaching art and institutional models of education Readers will see an artist at work formulating ethical and political strategies for making art in a situational world     Jacques Lipchitz: Sculpture and Drawings from the Cubist Epoch Marlborough Fine Art (London),1978     **Painting outside the Lines** David W.
