Beginning Your Counseling Career Mary Olufunmilayo Adekson, 2020-02-21 *Beginning Your Counseling Career* provides a comprehensive overview of the counseling profession and equips students with the clinical and administrative skills they need to progress in the field. Helpfully organized into five sections, the text addresses basic career considerations and preparatory aspects of the profession as well as a range of topics to help students broaden their focus on professional development. Chapters cover areas including online masters and doctoral programs, developing a counseling identity, mentoring students for private practice, supporting minority students in counseling programs, considerations for international students, special education legislation, and more. Suitable for students taking preliminary courses in counseling as well as practicum and internship classes, *Beginning Your Counseling Career* offers a detailed and up-to-date framework for aspiring professional counselors at both masters and doctoral levels.

Co-Design of Rehabilitation Programming Janelle Unger, James Middleton, John Bourke, Dalton L. Wolfe, 2025-01-14 *Co-Design* is an approach used in healthcare that integrates patient and care partner experiences into service and program development and delivery. Co-design involves both users and healthcare professionals or researchers working together to identify opportunities for improvement, set goals, evaluate progress and outcomes, and reflect on processes. Implementing a co-design process improves person-centered care and results in positive outcomes for both patients and staff. Research in this area has increased significantly over the previous 15 years; however, much of this work has been focused on primary care. It is important to focus on the use of co-design in rehabilitation settings specifically due to the unique goals of these programs. The goal of this Research Topic is to highlight the use of co-design in rehabilitation programming and to value the knowledge and experience of those with lived experience who use rehabilitation services. The insights gained will provide a foundation for future rehabilitation program development.
