All Moms Work Sharon Reed Abboud, 2009 As featured in U S News World Report a must read fave for moms linking them in to career savvy advice imaginative options and terrific tips **Chicken Soup for the Working Mom's Soul** Jack Canfield, Mark Victor Hansen, 2012-08-21 Whether you work full time or part time in an office or from your home or are a stay at home mom's Chicken Soup for the Working Mom's Soul is for you **The Christian Mama's Guide to Parenting a Toddler** Erin MacPherson, 2013 This take on everything toddler from throwing food to potty training to massive toddler fits is filled with sanity saving advice every mom wants to hear **Calm the H*ck Down** Melanie Dale, 2020-12-08 From author and speaker Melanie Dale comes a laugh out loud hilarious parenting book that teaches you how to dial back the stress of raising children with the simple premise that we all just need to lighten up a little bit Most of us thought we'd be amazing parents and then we had kids Now we spend what little free time we have comparing ourselves to other parents comparing our kids to other kids and panicking that everyone else is nailing it except us Between constant social media postings to conflicting advice found in parenting books we often have no choice but to freak out But there is another way We all just need to calm the h*ck down Melanie Dale a special needs parent adoptive parent in vitro parent and reluctant cheer mom believes we are all putting too much pressure on ourselves and our kids to be perfect Instead she argues we need to take a step back so we can actually enjoy this journey called parenting *Calm the H*ck Down* is filled with stories from Melanie's own life as well as real life research for learning how to lighten up about every aspect of parenting from poopy diapers and germs to family vacations and adolescent angst She also discusses the pressure to knock it all out of the Pinterest park the challenge of instilling some kind of faith into your kids and worrying about their future while still trying to live in the present Infused with quirky humor profound insight and accessible advice *Calm the H*ck Down* gives you the permission to finally relax and enjoy this ridiculous thing we do called parenting *Holding It Together* Jessica Calarco, 2024-06-04 Other countries have social safety nets The U S has women *Holding It Together* chronicles the causes and dire consequences America runs on women women who are tasked with holding society together at the seams and fixing it when things fall apart In this tour de force acclaimed Sociologist Jessica Calarco lays bare the devastating consequences of our status quo *Holding It Together* draws on five years of research in which Calarco surveyed over 4000 parents and conducted more than 400 hours of interviews with women who bear the brunt of our broken system A widowed single mother struggles to patch together meager public benefits while working three jobs an aunt is pushed into caring for her niece and nephew at age fifteen once their family is shattered by the opioid epidemic a daughter becomes the backstop caregiver for her mother her husband and her child because of the perceived flexibility of her job a well to do couple grapples with the moral dilemma of leaning on overworked underpaid childcare providers to achieve their egalitarian ideals Stories of grief and guilt abound Yet they are more than individual tragedies Tracing present day policies back to their roots Calarco reveals a systematic

agreement to dismantle our country's social safety net and persuade citizens to accept precarity while women bear the brunt. She leads us to see women's labor as the reason we've gone so long without the support systems that our peer nations take for granted and how women's work maintains the illusion that we don't need a net. Weaving eye-opening original research with revelatory sociological narrative, *Holding It Together* is a bold call to demand the institutional change that each of us deserves and a warning about the perils of living without it.

The Masculine Worker Versus the Hybrid Citizen Anna Cornelia Korteweg, 2004

Mom the Chemistry Professor Kimberly Woznick, Amber Charlebois, Renée Cole, Cecilia Marzabadi, Gail Webster, 2018-07-28

When is the right time? How can I meet the demands of a professorship whilst caring for a young family? Choosing to become a mother has a profound effect on the career path of women holding academic positions, especially in the physical sciences. Yet many women successfully manage to do both. In this second edition, which is a project of the Women Chemists Committee (WCC) of the American Chemical Society (ACS), 40 inspirational personal accounts describe the challenges and rewards of combining motherhood with an academic career in chemistry. The authors are all women at different stages of their career and from a range of institution types in both tenure and non-tenure track positions. The authors include women from different racial and ethnic backgrounds who became mothers at different stages of their career and who have a variety of family structures. Aimed at undergraduate and graduate students of chemistry as well as postdoctoral fellows and early career faculty, these contributions serve as examples for women considering a career in academia but worry about how this can be balanced with other important aspects of life. The authors describe how they overcame particular challenges but also highlight aspects of the system which could be improved to accommodate women academics and particularly encourage more women to take on academic positions in the sciences.
