How To Hybrid Work Schedule With Low Investment:

Remote Work, Internal Marketing and Human Resource Management Teena Mishra, 2024-12-02 Remote working is a developing idea that many organizations are embracing especially in light of COVID 19 and the rise in demand for remote and hybrid roles. As there is no standard model to use for implementation, a number of problems and difficulties develop as popularity increases and hybrid working environments become normalized. This book presents the views, opinions, and reality of remote work and creating an appropriate internal marketing culture in a remote environment. The key topics explored are the significance of remote work, remote work practice, reshaping the work environment, designing remote work models, remote work challenges, remote work facing business organizations, remote work management innovations and technology, the role of motivation and satisfaction in organizational development, employee empowerment in a remote setting, transparency and commitment for sustainable development, and the future of remote work. This research volume will be of value to researchers, academicians, practitioners, and students in the fields of human resource management, organizational studies, and innovation management.

Global Clinical Legal Education Jeff Giddings, 2025-01-28 This book explores the distinctive nature of clinical legal education in a range of global contexts. The emergence of law school based clinical legal education has been recognised as a major innovation in modern legal education. At its best, it integrates the academic rigour of university based learning with the practical, ethical, and social justice insights that come from structured work with clients. This book examines what makes clinic different from other aspects of legal education and how it differs from experiential learning in other disciplines, particularly in its emphasis on social justice. It provides an analysis of various models that support student learning in community settings. From 66 contributors across the globe, Learning goals, teaching methods, focus areas, forms of student involvement, engagement with lawyers, and the challenges faced are all identified as important in giving clinical legal education its local flavour. Exploring the role of technology in clinic and the significant growth in technology based clinics, the book reviews the ways in which clinics harness technology to serve diverse client communities and extend the global reach of clinical legal education, particularly in light of the ongoing COVID 19 pandemic. This book will be of particular interest to researchers in the fields of clinical legal education and the use of emerging technologies in legal education.
