Legal Data and Information in Practice Sarah A. Sutherland, 2022-01-31 *Legal Data and Information in Practice* provides readers with an understanding of how to facilitate the acquisition management and use of legal data in organizations such as libraries courts governments universities and start ups Presenting a synthesis of information about legal data that will furnish readers with a thorough understanding of the topic the book also explains why it is becoming crucial that data analysis be integrated into decision making in the legal space Legal organizations are looking at how to develop data driven insights for a variety of purposes and it is as Sutherland shows vital that they have the necessary skills to facilitate this work This book will assist in this endeavour by providing an international perspective on the issues affecting access to legal data and clearly describing methods of obtaining and evaluating it Sutherland also incorporates advice about how to critically approach data analysis *Legal Data and Information in Practice* will be essential reading for those in the law library community who are based in English speaking countries with a common law tradition The book will also be useful to those with a general interest in legal data including students academics engaged in the study of information science and law

Automating Junos Administration Jonathan Looney, Stacy Smith, 2016-04-27 How can you grow and maintain a reliable flexible and cost efficient network in the face of ever increasing demands With this practical guide network engineers will learn how to program Juniper network devices to perform day to day tasks using the automation features of the Junos OS Junos supports several automation tools that provide powerful solutions to common network automation tasks Authors Jonathan Looney and Stacy Smith senior testing engineers at Juniper will help you determine which tools work best for your particular network requirements If you have experience with Junos this book will show you how automation can make a big difference in the operation of your existing network Manage Junos software with remote procedure calls and a RESTful API Represent devices as Python objects and manage them with Python's PyEZ package Customize Junos software to detect and block commits that violate your network standards Develop custom CLI commands to present information the way you want Program Junos software to automatically respond to network events Rapidly deploy new Junos devices into your network with ZTP and Netconfify tools Learn how to use Ansible or Puppet to manage Junos software [YouTube](#) Jean Burgess, Joshua Green, 2018-08-28 Since launching as a website for everyday video sharing in 2005 YouTube has become one of the world's most powerful digital media platforms Originally published in 2009 when YouTube was only four years old this book was the first to systematically investigate its cultural impacts and politics highlighting the productive tensions between its amateur community rhetoric and its commercial media logics Since then YouTube has grown as a platform and matured as a company Its business model is built on coordinating the interests of and extracting value from its content creators audiences advertisers and media partners in a commercial setting where YouTube now competes with other powerful social media and streaming television platforms Meanwhile YouTube's diverse communities of content creators who developed the platform's

most distinctive cultural forms and genres have strong ideas and interests of their own While preserving the original edition s forensic analysis of YouTube s early popular culture and uses this fully revised and updated edition weaves fresh examples updated theoretical perspectives and comparative historical insights throughout each of its six chapters Burgess and Green show how over its more than a decade of existence YouTube s dual logics of commerciality and community have persisted generating new genres of popular culture new professional identities and business models for the media industries and giving rise to ongoing platform governance challenges The book is essential reading for anyone interested in the contemporary and future implications of digital media platforms and will be particularly valuable for students and scholars in media communication and cultural studies

retrieval management and prediction Mountain Resort Marketing and Management Armelle Solelhac,2021-08-25 Mountain resort tourism is a competitive environment experiencing increasing growth in new markets such as China that require the knowledge and skills developed by mature markets This book provides these insights by offering a critical and up to date examination of the mountain industry This book covers branding management and revenue optimization in an industry where very heavy investments are requested and mature markets need to ensure they remain competitive Chapters include interviews with professionals and international experts on mature markets to shed light on the development and marketing strategies that make these resorts successful Major issues facing mountain resorts today are addressed including climate change sustainability COVID 19 the experience economy yield management and dynamic pricing policies and investment management Offering valuable knowledge on how to successfully market and manage ski resorts in an ever changing and competitive environment this will be useful reading for upper level students researchers and current practitioners in winter sports destination development and management sport tourism and development studies But Will It Fly? Iver P. Cooper,2025-09-17 Conventional aircraft today are propelled by the action of propellers or jets and powered by the internal combustion of petroleum fuels in piston turboprop or jet engines But other power sources powerplants and propulsion devices for airships as well as aircraft have been proposed and even experimented with over the last few centuries The power sources considered include human muscles steam batteries nuclear reactors and hydrogen fuel and the propulsion devices include sails oars flapping wings rockets and cycloidal propellers This meticulously researched book presents the history of these unconventional aerial power and propulsion systems explains the underlying science and technology behind them and assesses the crucial question of practicality Four Battlegrounds Paul Scharre,2023-02-28 An NPR 2023 Books We Love Pick One of the Next Big Idea Club s Must Read Books An invaluable primer to arguably the most important driver of change for our future P W Singer author of *Burn In* An award winning defense expert tells the story of today s great power rivalry the struggle to control artificial intelligence A new industrial revolution has begun Like mechanization or electricity before it artificial intelligence will touch every aspect of our lives and cause profound disruptions in the balance of global power especially among the AI superpowers China the United States and Europe Autonomous weapons expert Paul Scharre takes readers inside the fierce competition to develop and implement this game changing technology and dominate the future *Four Battlegrounds* argues that four key elements define this struggle data computing power talent and institutions Data is a vital resource like coal or oil but it must be collected and refined Advanced computer chips are the essence of computing power control over chip supply chains grants leverage over rivals Talent is about people which country attracts the best researchers and most advanced technology companies The fourth battlefield is maybe the most critical the ultimate global leader in AI will have institutions that effectively incorporate AI into their economy society and especially their military Scharre s account surges with futuristic technology He explores the ways AI systems are already discovering new strategies

via millions of war game simulations developing combat tactics better than any human tracking billions of people using biometrics and subtly controlling information with secret algorithms He visits China's National Team of leading AI companies to show the chilling synergy between China's government private sector and surveillance state He interviews Pentagon leadership and tours U S Defense Department offices in Silicon Valley revealing deep tensions between the military and tech giants who control data chips and talent Yet he concludes that those tensions inherent to our democratic system create resilience and resistance to autocracy in the face of overwhelmingly powerful technology Engaging and direct *Four Battlegrounds* offers a vivid picture of how AI is transforming warfare global security and the future of human freedom and what it will take for democracies to remain at the forefront of the world order **Analog to AI Futures: Pioneering**

SynBio Nexus Design Thomas Spiegelhalter,2025-02-03T00:00:00+01:00 1098 2 80 *Serving Library Users from Asia* John Hickok,2019-06-12 Asian populations are among some of the fastest growing cultural groups in the US While books on serving other target groups in libraries have been published e g disabled Latino seniors etc few books on serving library users of Asian heritage have been written Thus the timely need for this book Rather than a generalized overview of Asians as a whole this book has 24 separate chapters each on 24 specific Asian countries cultures of East Southeast and South Asia with a wealth of resources for understanding interacting with outreaching to and serving library users of each culture Resources include cultural guides both print and online language helps with sample library vocabulary Asian booksellers nationwide cultural groups professional literature and more Resources and suggestions are given for all three types of libraries public school and academic making this book valuable for all librarians The demographics of each Asian culture numbers and distribution plus history of immigration and international student enrollment is also featured As a bonus each chapter spotlights a US public school and academic library providing model outreach to Asian library users Additionally this book provides a detailed description and analysis of libraries in each of the 24 Asian countries The history development facilities conditions technology classification systems and more of public school and academic libraries are all discussed with detailed documentation Country conditions influencing libraries and library use are also described literacy levels reading cultures languages and writing systems educational systems and more Based on the author's 15 years of research and travels to Asia this work is a must have for all librarians *New Directions in Science and Environmental Communication:*
