*A Common Good Approach to Development* Mathias Nebel, Oscar Garza-Vázquez, Clemens Sedmak, 2022-04-26 This edited collection proposes a common good approach to development theory and practice Rather than focusing on the outcomes or conditions of development the contributors concentrate on the quality of development processes suggesting that a common good dynamic is key in order to trigger development Resulting from more than three years of research by an international group of over fifty scholars the volume advocates for a modern understanding of the common good rather than a theological or metaphysical good in societies by emphasising the social practice of commoning at its core It suggests that the dynamic equilibrium of common goods in a society should be at the centre of development efforts For this purpose it develops a matrix of common good dynamics accounting for how institutions social norms and common practices interconnect by identifying five key drivers not only of development but human development agency governance justice stability humanity Based on this matrix the contributors suggest a possible metric for measuring the quality of these dynamics The last section of the book highlights the possibilities enabled by this approach through a series of case studies The concept of the common good has recently enjoyed a revival and inspired practitioners keen to look beyond the shortcomings of political and economic liberalism This book builds on those efforts to think beyond the agenda of twentieth century development policies and will be of interest to those working in the fields of development economics sociology philosophy and political science

*Children and Media Research and Practice during the Crises of 2020* Vikki S. Katz, Bradley J. Bond, 2022-10-20 This unique yearbook captures the extraordinary events and effects of 2020 on children and media scholars and practitioners Contributors reflect on how the compounding crises of 2020 the COVID 19 pandemic international protests for racial justice and the climate crisis have prompted them to re evaluate some aspects of their research teaching or production related to children adolescents and media Crises can be opportunities for clarity revealing creative ways to address collective challenges This volume which began as a special issue of Journal of Children and Media reveals such insights Contributors discuss how the crises of 2020 Prompted them to reconsider theories and concepts central to research on children adolescents and media Fostered new priorities for how and what they teach Spurred creative ways to produce high quality accessible educational media for children globally Affected their media engagement with their own children while they researched children s media use during social distancing Weighed more heavily on scholars and practitioners of color and how professional communities can best respond to those challenges These 36 international contributions reveal how children and media scholars and professionals worked through the crises of 2020 putting newfound clarity to creative use in the service of children all over the world
