web an electromagnet is a coil of wires that becomes a magnet when electric current runs through it electromagnets only work when the electric current is turned on increasing the electric current or increasing the number of wire loops increases the strength of the electromagnet

magnetism and electromagnetism stem - Apr 30 2022

web magnetism and electromagnetism the basic ideas of magnetism interaction between magnets and magnetic objects and magnetic fields should have been covered at primary level and again at ks3 and so it would be hoped that students will be familiar with them although it is worth checking

difference between magnetism and electromagnetism - Jun 01 2022

web nov 1 2015 the main difference between magnetism and electromagnetism is that the term magnetism encompasses only phenomena due to magnetic forces whereas electromagnetism encompasses phenomena due to both to magnetic and electric forces in fact electric and magnetic forces are both manifestations of a single
