Digital Age Linda Leveque Bennett, Michael J. Berson, 2007
Research on ESL in U.S. Community Colleges Kathleen M. Bailey, Maricel Guiao Santos, 2009
 As enrollment figures for ESL and former ESL students in higher education continue to grow, it's necessary for educators who work with these students to reflect on current practices, develop new understandings, and take action when change is warranted. This collection explores some of the most important challenges for English for Academic Purposes (EAP) educators in a crucial area of U.S. higher education: community colleges. Community college mission statements generally feature a strong commitment to meeting local needs. The studies presented in this book serve to illustrate community connections and the social implications of them. Readers will gain insight into relevant practice while learning from studies that can serve as a basis for additional research. The chapters are organized according to five themes: curricula, technology, retention, and persistence, identity, and defining and assessing success. Areas that all ESL programs in community colleges are struggling to reform. Each part features a sampling of research combined with varied perspectives on each topic.

All Your Friends Like This Hal Crawford, Andrew Hunter, Domagoj Filipovic, 2015-09-01
 ALL YOUR FRIENDS LIKE THIS is a topical, punchy, and provocative look at how social networks are taking over the news. How do you get your news? Chances are not from a newspaper or the TV that's so old school. If you're anything like the rest of us, you get it from Facebook or Twitter. The great power shift from traditional media to social networks is happening right now. This boom means that for millions of us, our first exposure to information about the world comes from our friends, not news media. But social networks don't do news the old-fashioned way. Because we share stories that make us look good, inspire us, and fire us up, the tone and flavour of the news-making process is irrevocably altered. What does this mean for media? For journalists? The audience? Are we better off or worse off because of it? Highly topical, provocative, and totally absorbing. ALL YOUR FRIENDS LIKE THIS does for the media what Freakonomics did for economics. If you're interested in the news, in what we read, and why we read it, then this game-changing book is essential.
