Self-Studies of Teacher Education Practice Online Mary F. Rice, Ramona Maile Cutri, Juanjo Mena, 2024-05-20 This edited volume explores the emotional work of being an online teacher educator The chapter authors discuss the intense work involved in planning teaching and navigating intuitional contexts in order to build a relationship between online teaching and the Self Study of Teacher Educator Practice S STEP methodology Additionally the authors of the chapters in the book used the S STEP methodology to move their practices and their teacher educator identities beyond emergency crisis uses of online teaching common during campus building closures Each chapter offers different ways that S STEP methodology can be used to sustain oneself as an online teacher educator Although there are specific strategies and practices this is not a how to book for online teacher educating it is an exploration of online teachers and groups of online teachers supporting themselves and each other by studying and learning from their practices *Promoting Equity in Approximations of Practice for Mathematics Teachers*

Wilkerson Lee, Carrie, Bondurant, Liza, Sapkota, Bima, Howell, Heather, 2024-11-07 Within the field of mathematics teacher education a profound challenge echoes the persistent gap between theoretical understanding and practical application This lingering divide raises a critical concern one that finds its focus in the exploration of transformative tools known as approximations of practice These tools aim to provide a realistic and contextualized environment for PSTs to cultivate their teaching skills However the broader often overlooked issue permeating this educational terrain is the question of equity in mathematics instruction an issue that this book endeavors to unravel and reshape positioning equity at the forefront of pedagogical considerations *Promoting Equity in Approximations of Practice for Mathematics Teachers* a compelling work that not only delves into the transformative role of approximations but also champions equity as a cornerstone in reshaping the landscape of mathematics education This groundbreaking work has a dual objective firstly to furnish mathematics teacher educators and researchers with a comprehensive overview of the current landscape of approximations in mathematics education It moves beyond a mere survey encouraging readers to critically analyze frameworks and design choices that either foreground or dismiss equity in these pedagogical spaces Divided into three sections the book delves into the spectrum of work characterizing approximations in mathematics teacher education The first section surveys diverse approaches acknowledging the current lack of focus on equity The second section critically examines the intersection of equity and approximations fostering collaborations between experts in mathematics education and equity focused researchers The third section takes a forward looking stance envisioning the future of equity focused approximations in mathematics education **Implementing the Framework for Teaching in Enhancing Professional Practice**

Charlotte Danielson, Darlene Axtell, 2009 Presents a teaching tool to help with application of best practices and with analysis of one s techniques in the classroom covering preparation with regard to content and pedagogy implementing an effective learning environment communicating and engaging with students and professional and administrative responsibilities

Engaging Teacher Candidates and Language Learners With Authentic Practice Lenkaitis, Chesla Ann, Hilliker, Shannon M., 2019-06-28 Teacher candidates need authentic practice with language learners so that they can test and hone their skills based on the concepts learned in their teacher education programs with real students. These candidates need practice before and beyond student teaching and fieldwork. If they are given the chance to practice during as many teacher education courses as possible and have access to language learners throughout their programs, they can focus on applying the specific content of each class they take in a real world context with real students. *Engaging Teacher Candidates and Language Learners With Authentic Practice* highlights strategies teacher educators can use to give their teacher candidates authentic practice attached to coursework. By focusing on ways that authentic practice has been integrated into teacher preparation programs and studies that have been realized, this publication will provide practical ways for others to provide this authentic practice which is much needed in teacher preparation programs. This book highlights topics such as pedagogy, student engagement, and intercultural competence and is ideal for educators, administrators, researchers, and students. *Forum*, 1997

International Handbook of Research on STEAM Curriculum and Practice Stephen J. Farenga, Salvatore G. Garofalo, Daniel Ness, 2025-10-24 This comprehensive handbook delves into curriculum, praxis, human development, and cognition within the contexts of the STEAM disciplines: science, technology, engineering, arts, architecture, and mathematics. Cutting edge research will help educators identify best practice techniques for developing students' knowledge in STEAM subjects as well as capture contemporary social and political issues within the STEAM context. Drawing on the work of over 50 international contributors, this volume covers both emergent and established areas of research, giving voice to newcomers to the field as well as perspectives from established experts. These areas are divided into five sections: foundations, content, teaching and learning throughout the lifespan, equity and enrichment, and settings. Each topic is considered in both its historical and current context with a focus on the interconnections between theory and practice. This book offers a first of its kind overview of STEAM curriculum development which will be especially useful to educational practitioners and researchers of STEAM subjects as well as teacher educators overseeing STEAM education. This resource will also be useful for K-12 school and institutional libraries as reference material and for curriculum specialists and administrators seeking to identify methods of best educational practices within STEAM. *Bulletin* Kansas Association of Teachers of Mathematics, 1927
