## **Practical Hybrid Work Schedule For Teachers:**

**Preparing the Next Generation of Teacher Educators for Clinical Practice** Diane Yendol-Hoppey, Nancy Fichtman Dana, David T. Hoppey, 2019-07-01 Today in many contexts the lack of attention to preparing the next generation of teacher educators as well as having a critical mass of faculty who understand the current teacher education research problem lingers. Although the NCATE Blue Ribbon Panel Report 2010, the recent advent of the CAEP standards and the new AACTE Clinical Practice Commission Report 2017 challenge those responsible for teacher preparation to rethink the design as well as their work within clinical practice, there is much too little discussion about how to prepare the next generation of teacher educators to work differently. Just like Zeichner found almost 20 years ago, teacher education still too often remains a tangential concern for most and the major concern of only a few. Zeichner 1999 p 11. These concerns raise important questions for those who are currently responsible for pivoting, reinventing and researching teacher preparation. This book offers insights from teacher education researchers that illustrate the ongoing benefits and persistent challenges of educating and preparing university and school based teacher educators. This is an important step in understanding the complex roles, practices and responsibilities associated with high quality teacher education that emphasizes clinical practice.
