**Remote Work, Internal Marketing and Human Resource Management** Teena Mishra, 2024-12-02. Remote working is a developing idea that many organizations are embracing, especially in light of COVID-19 and the rise in demand for remote and hybrid roles. As there is no standard model to use for implementation, a number of problems and difficulties develop as popularity increases and hybrid working environments become normalized. This book presents the views, opinions, and reality of remote work and creating an appropriate internal marketing culture in a remote environment. The key topics explored are the significance of remote work, remote work practice, reshaping the work environment, designing remote work models, remote work challenges, remote work facing business organizations, remote work management innovations and technology, the role of motivation and satisfaction in organizational development, employee empowerment in a remote setting, transparency and commitment for sustainable development, and the future of remote work. This research volume will be of value to researchers, academicians, practitioners, and students in the fields of human resource management, organizational studies, and innovation management.

**Contractual Procedures in the Construction Industry** Allan Ashworth, Srinath Perera, 2018-03-13. Contractual Procedures in the Construction Industry, 7th edition, aims to provide students with a comprehensive understanding of the subject and reinforces the changes that are taking place within the construction industry. The book looks at contract law within the context of construction contracts; it examines the different procurement routes that have evolved over time and the particular aspects relating to design and construction, lean methods of construction, and the advantages and disadvantages of PFI, PPP, and its variants. It covers the development of partnering, supply chain management, design and build, and the way that the clients and professions have adapted to change in the procurement of buildings and

engineering projects This book is an indispensable companion for students taking undergraduate courses in Building and Surveying Quantity Surveying Construction Management and Project Management It is also suitable for students on HND C courses in Building and Construction Management as well as foundation degree courses in Building and Construction Management Key features of the new edition include A revised chapter covering the concept of value for money in line with the greater emphasis on added value throughout the industry today A new chapter covering developments in information technology applications building information modelling blockchains data analytics smart contracts and others and construction procurement Deeper coverage of the strategies that need to be considered in respect of contract selection Improved discussion of sustainability and the increasing importance of resilience in the built environment Concise descriptions of some the more important construction case laws
