The Toolkit gathers a range of good practices from all OECD countries, covering policy areas such as education and skills, employment and entrepreneurship, health and social inclusion, participation and representation in public life and public governance, and intergenerational justice. To support inclusive policies, the OECD Youth Policy Toolkit recognises the diverse characteristics among young people across national contexts, including socio-economic status, geographic location, age, gender, race, ethnicity, indigeneity, migrant status, disability status, and all other identities young people associate with and their intersections.

National Youth Service : a Global Idea for Local Action ,1996 **Social Work Diagnosis in Contemporary Practice**

Francis J. Turner,2005-02-10 The unifying theme of this broad-reaching volume is that responsible, ethical, and effective social work practice rests on the diagnostic skills of the practitioner. Social work diagnosis refers to the conscious formulation of an ongoing set of decisions about the client and his or her situation, which serve as the basis for intervention decisions for which the practitioner must be prepared to take responsibility. Diagnostic skill development is an ongoing process, principally enhanced by a continuous commitment to remain at the cutting edge of the profession's body of knowledge, but one of the challenges for today's practitioner is keeping abreast of the rapidly expanding body of knowledge contained in some 200 important social work periodicals in circulation. Francis J. Turner, a preeminent clinical scholar, brings together in one volume

some of the best work published since 2000 each reflecting new insights into understanding psychosocial situations and innovative methods of applying knowledge and skills in an increasingly effective manner Each of the 78 articles in this volume highlights some of the critical dimensions of contemporary social work practice guiding clinicians to address four key aspects in order to craft an accurate diagnosis The first section presents articles covering the developmental spectrum each of which fully explains various ages and stages of development The second section focuses on a range of specific situations helping practitioners and students enrich their understanding of different types of problems they meet in contemporary practice whether they are based in mental illness psychosocial issues or physical ailments The third section addresses the crucial component of diversity demonstrating the complexity and critical importance of truly understanding clients and their lives The last section of the book discusses innovative approaches to practice selected to offer practitioners easy access to the latest interventions for a host of contemporary challenges facing clients and their therapists Broad in scope and tightly focused on the goal of providing the most up to date information necessary for accuracy in the diagnostic process this volume represents some of the best research available to today's social workers *Digital World* Gillian Youngs, 2013-06-26 The Internet and digital technologies have changed the world we live in and the ways we engage with one another and work and play This is the starting point for this collection which takes analysis of the digital world to the next level exploring the frontiers of digital and creative transformations and mapping their future directions It brings together a distinctive collection of leading academics social innovators activists policy specialists and digital and creative practitioners to discuss and address the challenges and opportunities in the contemporary digital and creative economy Contributions explain the workings of the digital world through three main themes connectivity creativity and rights They combine theoretical and conceptual discussions with real world examples of new technologies and technological and creative processes and their impacts Discussions range across political economic and cultural areas and assess national contexts including the UK and China Areas covered include digital identity and empowerment the Internet and the Fifth Estate social media and the Arab Spring digital storytelling transmedia and audience economic and social innovation digital inclusion community and online curation cyberqueer activism The volume developed out of a UK Economic and Social Research Council funded research seminar series **Youth and Communism**, 1958 *The Status of Youth in Agrifood Systems* Food and Agriculture Organization of the United Nations, The world's agrifood systems stand at a crossroads With 1.3 billion youth globally the future of food livelihoods and economic resilience depends on their participation in agrifood systems At the same time agrifood systems need youth to drive productivity innovation and sustainability in a crucial and rapidly evolving sector FAO's *The Status of Youth in Agrifood Systems* report is a call to action It presents the most comprehensive evidence based analysis of youth in agrifood systems to date highlighting both the opportunities and structural barriers that shape their engagement It explores how transforming agrifood systems can enhance decent job opportunities and food security for youth and how empowered
