Personal Note From The Author

As a first time dad I had no idea what awaited me in the first few months of fatherhood Life was busy enough helping out my wife where I could busting my butt at work and trying to plan for our future I had little time to talk listen or read about becoming a dad In hindsight that was a mistake I should have made the time because so much happens so quickly and had I just been a tad prepared for the first few months it would have been smooth sailing Instead it took many months for me to find my groove When my wife announced she was pregnant with our second child I decided that I wasn't going to wait this time around So I created this book to help my fellow man a strategy that will give you the important things to know and some fun ideas you can do that will show you how to be that Super Dad you aspire to be Scroll up click the buy button get started today DADspirations A guide to your 1st 100 days
