Advanced Introduction to Law and

Artificial Intelligence Woodrow Barfield, Ugo Pagallo, 2020-10-30 Woodrow Barfield and Ugo Pagallo present a succinct introduction to the legal issues related to the design and use of artificial intelligence AI Exploring human rights constitutional law data protection criminal law tort law and intellectual property law they consider the laws of a number of jurisdictions including the US the European Union Japan and China making reference to case law and statutes *Bots* Nick Monaco, Samuel Woolley, 2022-05-10 Bots automated software applications programmed to perform tasks online have become a feature of our everyday lives from helping us navigate online systems to assisting us with online shopping Yet despite enabling internet users bots are increasingly associated with disinformation and concerning political intervention In this ground breaking book Monaco and Woolley offer the first comprehensive overview of the history of bots tracing their varied applications throughout the past sixty years and bringing to light the astounding influence these computer programs have had on how humans understand reality communicate with each other and wield power Drawing upon the authors decade of experience in the field this book examines the role bots play in politics social life business and artificial intelligence Despite bots being a fundamental part of the web since the early 1990s the authors reveal how the socially oriented ones continue to play an integral role in online communication globally especially as our daily lives become increasingly automated This timely book is essential reading for students and scholars in Media and Communication Studies Sociology Politics and Computer Science as well as general readers with an interest in technology and public affairs Software Engineering and Advanced Applications Davide Taibi, Darja Smite, 2025-10-09 This three volume set constitutes the refereed proceedings of the 51st Euromicro Conference on Software Engineering and Advanced Applications SEAA 2025 held in Salerno Italy during September 10 12 2025 The 62 full papers were carefully reviewed and selected from 177 submissions These papers were organized in the following topical sections Part I Data and AI Driven Engineering Cyber Physical Systems Model Driven Engineering and Modeling Languages Part II Practical Aspects of Software Engineering Systematic Literature Reviews and Mapping Studies in Software Engineering Part III Software Management Measurement Peopleware and Innovation Software Process and Product Improvement Software Analytics Mining Software Open Datasets and Repositories Emerging Computing Technologies **Empire of AI** Karen Hao, 2025-05-20 An Instant New York Times Bestseller A bestselling page turner that has made waves not just in Silicon Valley but around the world With *Empire of AI* Hao is fundamentally shaping many people's perceptions and understanding of the company at the center of the AI revolution TIME Magazine TIME100 AI 2025 Excellent and deeply reported Tim Wu The New York Times Startling and intensely researched an essential account of how OpenAI and ChatGPT came to be and the catastrophic places they will likely take us Vulture Hao's reporting inside OpenAI is exceptional and she's persuasive in her argument that the public should focus less on AI's putative sentience and more on its implications for labor and the environment Benjamin Wallace Wells New Yorker From a brilliant longtime AI insider with intimate access to the world of Sam Altman's OpenAI from the beginning an eye opening account of arguably the most fateful

tech arms race in history reshaping the planet in real time from the cockpit of the company that is driving the frenzy When AI expert and investigative journalist Karen Hao first began covering OpenAI in 2019 she thought they were the good guys Founded as a nonprofit with safety enshrined as its core mission the organization was meant its leader Sam Altman told us to act as a check against more purely mercantile and potentially dangerous forces What could go wrong Over time Hao began to wrestle ever more deeply with that question Increasingly she realized that the core truth of this massively disruptive sector is that its vision of success requires an almost unprecedented amount of resources the compute power of high end chips and the processing capacity to create massive large language models the sheer volume of data that needs to be amassed at scale the humans cleaning up that data for sweatshop wages throughout the Global South and a truly alarming spike in the usage of energy and water underlying it all The truth is that we have entered a new and ominous age of empire only a small handful of globally scaled companies can even enter the field of play At the head of the pack with its ChatGPT breakthrough how would OpenAI resist such temptations Spoiler alert it didn't Armed with Microsoft's billions OpenAI is setting a breakneck pace chased by a small group of the most valuable companies in human history toward what end not even they can define All this time Hao has maintained her deep sourcing within the company and the industry and so she was in intimate contact with the story that shocked the entire tech industry Altman's sudden firing and triumphant return The behind the scenes story of what happened told here in full for the first time is revelatory of who the people controlling this technology really are But this isn't just the story of a single company however fascinating it is The forces pressing down on the people of OpenAI are deforming the judgment of everyone else too as such forces do Naked power finds the ideology to cloak itself no one thinks they're the bad guy But in the meantime as Hao shows through intrepid reporting on the ground around the world the enormous wheels of extraction grind on By drawing on the viewpoints of Silicon Valley engineers Kenyan data laborers and Chilean water activists Hao presents the fullest picture of AI and its impact we've seen to date alongside a trenchant analysis of where things are headed An astonishing eyewitness view from both up in the command capsule of the new economy and down where the real suffering happens Empire of AI pierces the veil of the industry defining our era
