marketing and will remain an online marketing niche for the foreseeable future. It opens up a new world of interactivity and you should take advantage of it. As live streaming becomes more popular, it is not as expensive as older video marketing methods. All you need for a live video stream is a solid and stable internet connection, a good camera, and HD quality recordings. Another advantage of live video streaming is that you will feel like you're in the room with the customer. For example, you can show them a demo version of your latest product and in parallel engage with the customer on real time interactively. Or sometime you can show them the office and introduce them to your employees in real time. With the help of social media platforms like Instagram and Facebook, companies lift the curtain to show what they are made of to their customers and live streaming makes it easy to do so. When used correctly, live streaming can help create community. In fact, platforms like Periscope allow people to comment simultaneously with the livestream so that your audience can interact with each other. This can help to forge a community.
