collection of abbreviations acronyms contractions and symbols within astronomy related space sciences and other related
fields As such this invaluable reference source and its companion volume *StarGuides Plus* should be on the reference shelf of

common use and or of general interest have also been included where appropriate *StarBriefs 2001* ,2012-12-06 This
compilation probably looks like one of the craziest things a human being could spend his or her time on Yet nobody would
wonder at someone taking a short walk every day after twenty five years that person would have covered a surprisingly long
distance This is exactly the story behind this list which appeared first as a few pages within the directory *StarGuides* or
whatever name it had at that time and as a distinct sister publication since 1990 The idea behind this dictionary is to offer
astronomers and related space scientists practical assistance in decoding the numerous abbreviations acronyms contractions
and symbols which they might encounter in all aspects of the vast range of their professional activities including traveling
Perhaps it is a bit paradoxical but if scientists quickly grasp the meaning of an acronym solely in their own specific discipline
they will probably encounter more difficulties when dealing with adjacent fields It is for this purpose that this dictionary
might be most often used Scientists might also refer to this compilation in order to avoid identifying a project by an acronym
which already has too many meanings or confused definitions **Reform of the Federal Criminal Laws** United States.
