*Decoding Generative AI* Farabi Shayor, Kelina Lowther-Harris, Kirthana Srinivasan, Anoushka Samanta, 2024-04-16 The emergence of Generative AI has marked a significant turning point heralding a new age of innovation and intellectual exploration Much like a compelling narrative this advancement in artificial intelligence has captivated the global community and ushered in an unprecedented surge of innovation For many years the subtle hum of AI has been interconnected into the fabric of our society Devices such as Echo Alexa and Google Home once considered avant garde are now seamlessly integrated into our homes and vehicles becoming essential navigators in our daily journeys However this new phase of AI evolution is distinct Capable of enhanced ability these new generative AI systems could easily discern the intuitive needs of their end users With a mere command or a simple image generative AI systems can draft comprehensive reports write legal documents or produce intricate visual masterpieces Their proficiency can also be extended to routine and mundane tasks smoothly managing administrative duties writing correspondences and providing invaluable support in professional settings Although these foundation models require a vast amount of training data and billions of parameters to be effective the outcomes are equally remarkable Technology companies and investors recognising the potential embarked on an investment spree steering a new era for the development of specialised models such as Microsoft CoPilot Midjourney ChatGPT and so on As these technology companies continue to improve their language models each version seems to be more refined than its predecessor Foremost among these are the Large Language Models LLMs emblematic of this AI renaissance Now with voice activated capabilities generative AIs have become capable of much more in the relatively short span of their existence With the integration of voice activated features combined with their capabilities to speak like a human being their potential continues to grow exponentially They aren t labelled as chatbots anymore these AI systems signify a technological paradigm shift reshaping humanity s understanding of technology automation and creative expression However with such shift comes the imperative need for governance and control The unchecked expansion of AI poses unmitigated challenges In reality these advanced AIs have the potential to be transformative and destructively parallelly

Thus it is necessary to establish guidelines and oversight to ensure the ethical deployment of such systems which this book focuses on As society stands at this transformative crossroads parallels are being drawn to the imaginative world of fiction The concept of Jarvis AI from the fictitious world appears provocatively close to becoming a reality The epoch of generative AI has truly dawned promising a future where technological prowess and human aspiration unite *Post-Anthropocene Civic and Global Education Studies* Peter Appelbaum,2024-10-08 This book explores community action within our more than human lifeworld tackling post Anthropocene challenges It presents bold experiments shifting from crisis study to asking How are we here It addresses key issues by moving beyond posthuman perspectives integrating indigenous ways of being resisting Doomer Culture and rejecting blind Hopeism Part 1 focuses on Post Anthropocene Pedagogies from an Education Studies perspective Part 2 illustrates the power of these pedagogies while Part 3 delves into literature on Post Anthropocene Education Part 4 illustrates the approach via case studies of teaching the development of an NGO and community art projects The narrative emphasizes maintaining a two way flow between human culture and nature highlighting porous boundaries It argues that mere knowledge won t cure or save the world Instead it advocates for leadership and civic engagement that enrich reconnection with place and stewardship The primary audience is within environmental education sustainability studies curriculum studies post human studies sociology of education and resource management as educational enterprise
