Large Language Models Oswald Campesato, 2024-10-02 This book begins with an overview of the Generative AI landscape distinguishing it from conversational AI and shedding light on the roles of key players like DeepMind and OpenAI. It then reviews the intricacies of ChatGPT, GPT-4 and Gemini, examining their capabilities, strengths and competitors. Readers will also gain insights into the BERT family of LLMs including ALBERT, DistilBERT and XLNet and how these models have revolutionized natural language processing. Further, the book covers prompt engineering techniques essential for optimizing the outputs of AI models and addresses the challenges of working with LLMs, including the phenomenon of hallucinations and the nuances of fine-tuning these advanced models. Designed for software developers, AI researchers and technology enthusiasts with a foundational understanding of AI, this book offers both theoretical insights and practical code examples in Python. Companion files with code, figures and datasets are available for downloading from the publisher. **Future Home** Alejandro Moreno-Rangel, Ruth Conroy Dalton, 2023-12-22 Global pandemics, smart technologies, demographics and climate change are just some of the external disruptors that may impact the home's evolution over the next ten years. Future Home provides a comprehensive horizon scan of what our homes may be like approximately ten years from now by looking for early signs of potentially important developments through a systematic examination of trends, innovations and disruptors. The authors consider what aspects of the home are likely to remain constant and what aspects may change beyond all recognition and, if changes are predicted, what form they may take and most importantly, what this means for design professionals. Exploring areas of buildings and technology, people and delivery, each chapter addresses the catalysts, natures and responses to these changes. This book provides an overview of the future home that will be essential reading for designers, policy makers and homeowners alike.
