Decentralized A.I. Yves Demazeau,Jean-Pierre Müller,1990 Much research in Artificial Intelligence deals with a single agent having complete control over the world A variation of this is Distributed AI DAI which is concerned with the collaborative solution of global problems by a distributed group of entities This book deals with Decentralized AI DzAI which is concerned with the activity of an autonomous agent in a multi agent world The word agent is used in a broad sense to designate an intelligent entity acting rationally and intentionally with respect to its goals and the current state of its knowledge A number of these agents coexist and may collaborate with other agents in a common world each agent may accomplish its own tasks or cooperate with other agents to perform a personal or global task The agents have imperfect knowledge about each other and about their common world which they can update either through perception of the world or by communication with each other The papers were originally presented at a workshop held at King s College Cambridge and have been revised for this book The National Underwriter ,1968-07 **Returns of Trade and Trade Reports** China.
