**Understanding the Technology Behind Online Offending** Christopher Wise,Jennifer Bamford,2025-02-25 Understanding the Technology Behind Online Offending A Guide for Professionals in the Criminal Justice System is a non technical explanation of online offences by a cybersecurity expert bridging the gap between the high tech world of cybercrime and the non technical professionals working within it The book begins by equipping the reader with a foundational understanding of how the internet works before exploring the various ways that people can exploit the Internet to commit crimes The reader is then introduced to some of the sophisticated ways that individuals may evade detection before we explore the organisations fighting to prevent and capture those offending online The book includes a contributory chapter from solicitors at Stone King LLP to help the reader understand how the law is evolving to prosecute offenders There is a further contributory chapter from psychologist Dr Ruth J Tully who discusses psychological risk assessment with those who offend online The book concludes with important chapters looking at how professionals can keep themselves safe online and future directions of the internet The book s intended audience includes all professionals who work with those who commit online offences such as psychologists solicitors social workers probation officers and police officers

The book is also suitable for those in training or graduate education      The Invisible Brand: Marketing in the Age of Automation, Big Data, and Machine Learning William Ammerman, 2019-05-24 Marketers are harnessing the enormous power of AI to drive unprecedented results The world of marketing is undergoing major change Sophisticated algorithms can test billions of marketing messages and measure results and shift the weight of campaigns all in real time What's next A complete transformation of marketing as we know it where machines themselves design and implement customized advertising tactics at virtually every point of digital contact The Invisible Brand provides an in depth exploration of the risks and rewards of this epochal shift while delivering the information and insight you need to stay ahead of the game Renowned technologist William Ammerman draws from his decades of experience at the forefront of digital marketing to provide a roadmap to our data driven future You'll learn how data and AI will forge a new level of persuasiveness and influence for reshaping consumers buying decisions You'll understand the technology behind these changes and see how it is already at work in digital assistants recommendation engines and digital advertising And you'll find unmatched insight into how to harness the power of artificial intelligence for maximum results As we enter the age of mass customization of messaging power and influence will go to those who know the consumer best Whether you are a marketing executive or concerned citizen The Invisible Brand provides everything you need to understand how brands are harnessing the extraordinary amounts of data at their disposal and capitalizing on it with AI      *Career Services and Workforce Development Centers for Libraries* Raymond Pun, Arpine Eloyan, Michael R. Oppenheim, 2024-11-18 With the rise of unemployment increased career growth opportunities and changing workforce demographics libraries can support job seekers in several ways Career Services and Workforce Development Center for Libraries A Guide serves as a resource for libraries interested in creating supporting or enhancing their career services economic and workforce development programs for their communities Going beyond collection development and hosting job fair activities the book covers teaching resources and interviews from library leaders supporting workforce development initiatives or collaborations ideas on how libraries can be embedded in the workforce development community by providing a series of job readiness activities programs and services how academic and public librarians can support their users exploring career opportunities and development examines employment trends and resources such as generative artificial intelligence to dive into these issues so libraries can stay active in identifying new skill development and technologies to support their communities How can one start a career services or job center program in their libraries What are specialized career services in libraries being offered How can libraries advocate for funding for workforce development Divided into five chapters each chapter addresses these questions and provides a series of examples ideas and resources for readers to consider replicating in their own libraries If you are looking for ideas for your libraries to support a community of job seekers this is the book for you      **Tropical Fish Hobbyist**, 2006      **The Hanson Guide to the Internet & Internet Databases**, 2000      Gale Guide to Internet Databases Gale Group, 1999-11 This directory tells how to access and retrieve

more than 5 000 Interact databases approximately 1 000 new databases have been added for this 5th edition Five comprehensive indexes master subject host provider white pages and alternate format provide quick access to the desired database

*Think Like a Human* David Weitzner, 2025-05-13 A new way of thinking that improves how we work create and live empowering readers to outsmart AI a tool that can never do what humans do The bedrock on which technology has been built and on which we now make strategic political ethical and even day to day decisions algorithmic thinking is flawed As we race headlong into a future where we outsource all our problem solving to artificial intelligence the greatest threat is not superintelligent machinery but too much trust in Big Tech and not enough trust in the power of our own minds *Think Like a Human* offers a new way forward what Dr Weitzner calls artful intelligence a philosophy that can help each of us solve problems and make better decisions To think artfully is to approach problem solving not just with our brains but with our hands eyes and ears along with our literal and metaphorical hearts and guts tapping into the myriad of underutilized cognitive resources distributed throughout our bodies *Think Like a Human* is a refreshing antidote and reality check to artificial intelligence mania and fear Cutting through the hype misinformation and corporate hustle around AI this book will inspire you to adopt the artful approach bringing intuition and emotional intelligence to your work and life
