world to synthesize how recent technological innovations have impacted the development practice and consumption of contemporary journalism. As technology rapidly progresses, shifts and innovates, there have been immense changes in the way we communicate. This book collects research from around the world that takes an in-depth look at the primary transformations related to journalistic innovation in recent times. High-profile contributors provide cutting-edge scholarship on innovation in journalism as it relates to emergent topics such as virtual reality, podcasting, multimedia, infographics, social media, mobile storytelling, and others. The book pays special attention to the development of information visualization and the ability of recent innovations to meet audience needs and desires. Students and scholars studying contemporary journalism history and practice will find this a vital and up-to-date resource, as well as those studying communication technology as it relates to marketing, PR, or mass media broadly.

Understanding Crisis in Critical Care Ronaldo Collo Go, 2021-11-26
The first detailed retrospective of the spread and management of COVID-19 and a blueprint for better management of the next major healthcare crisis. From a team of global experts, *Understanding Crisis in Critical Care* describes the global spread of COVID-19 and analyzes how it was managed compared to other deadly epidemics such as SARS and MERS. The book features contributors from across the world who dealt first-hand with COVID-19, making this a truly global retrospective on new global pandemics. Organized into three sections, the text covers critical care changes associated with crises: crises in pandemics, trauma, and crises in war and natural disasters. You'll learn how hospitals are transformed to accommodate surges in patients while dealing with shortages in staffing, medications, mechanical ventilators, and personal protective equipment, and get an invaluable look at how real-time critical decisions were made during the height of the pandemic. This one-of-a-kind guide covers: Working the frontlines; Antimicrobials versus Immunomodulators; Respiratory failure and mechanical ventilation; Repurposing therapies for COVID-19; Endocrinologic and cardiovascular issues; Special Populations: pediatrics and immunocompromised patients; SARS, MERS, COVID-19, Ebola, Anthrax, Influenza; Traumatic brain and lung injury; Palliative care and bioethics; Psychiatric issues; Intensive care units under austere conditions; Terrorism: biological and chemical.
