Future-Ready Teaching With AI Aaron Blackwelder,Jason Cowley,2024-12-18 Prepare your students for a future where AI literacy is crucial Artificial intelligence AI is here and seems on the brink of transforming education As teachers we

know that AI will not diminish the need for students to learn essential skills. It will however change how we teach and will require us to develop new skill sets for instruction and assessment. Teachers have a new opportunity to embrace future ready instruction that prepares students to engage in a world that expects them to be AI literate. In *Future Ready Teaching With AI: Unlocking Student Potential in the Age of Artificial Intelligence*, authors Aaron Blackwelder and Jason Cowley explore the integration of AI in the classroom and its potential to revolutionize teaching. Much more than simply a book about using AI tools, this rich resource aims to help teachers raise rigor, increase engagement, and promote more meaningful learning opportunities in their classrooms as they embrace the future of teaching and learning. Offering evergreen principles and strategies to help educators navigate the age of AI, this book encourages critical thinking about the ethical use of AI to foster conversations with students. Highlights various practical tools that can help teachers meet diverse student learning needs as well as create AI proof assignments. Includes chapter vignettes, sample AI prompts, activities, reflective questions, and links to online resources to support teachers' work in the classroom. Examines how to leverage AI to streamline rudimentary tasks such as lesson planning, assessment, and differentiation, allowing teachers to focus on building relationships, providing feedback, and personalizing learning for their students. Written by two secondary teachers, this book is an essential resource for K-12 teachers and administrators looking to move beyond the basics of using AI. By equipping educators to become leaders in this transformation, *Future Ready Teaching With AI* demonstrates how to harness the power of AI to help every student thrive.

AI Literacy in K-16 Classrooms Davy Tsz Kit Ng, Jac Ka Lok Leung, Maggie Jiahong Su, Iris Heung Yue Yim, Maggie Shen Qiao, Samuel Kai Wah Chu, 2022-12-07

Artificial Intelligence is at the top of the agenda for education leaders, scientists, technologists, and policy makers in educating the next generation across the globe. Beyond applying AI in daily life applications and educational tools, understanding how to learn and teach AI is increasingly important. Despite these emerging technology breakthroughs, AI learning is still new to educators, especially to K-16 teachers. There is a lack of evidence-based studies that inform them about AI learning, including design principles for building a set of curriculum content and pedagogical approaches, as well as technological tools. Teaching AI concepts and techniques from programming languages and developmentally appropriate learning tools, e.g., robotics, serious games, software, intelligent agents, across different education levels, emerged in recent years. The primary purpose of this book is to respond to the need to conceptualize the emerging term AI literacy and investigate how to teach and learn AI in K-16 education settings. This book examines different aspects of learning artifacts, pedagogies, content knowledge, and assessment methods of AI literacy education, from theoretical discussions to practical recommendations for curriculum and instructional design. An exhaustive summary of current evidence with examples is illustrated in this book, as well as cutting edge research that serves as an AI literacy model for different countries/contexts. Part I: Conceptualizing AI literacy provides a detailed discussion on the development of the concepts and frameworks. On AI literacy education, it discusses the differences and similarities between AI

in education AIED and AI literacy education and illustrates the reasons why K 16 students need to learn AI These concepts are brought together in Part II K 16 AI literacy education to further summarize the pedagogies learning content learning tools and assessment methods to inform K 16 educators how to design their AI instruction at each education level After that part III AI literacy for instructional designers explores how instructional designers i e AI developers and teachers prepare themselves to become ready to design developmentally appropriate tools platforms services and curricula to empower students with AI literacy skills
