Empowered or Left Behind DeeDee M. Bennett Gayle, Xiaojun (Jenny) Yuan, 2023-07-14 Focused on the United States this book summarizes the secondary impacts of COVID 19 due to the increased use of technology Establishing the global response of social distancing mandates for non essential business and working from home the book centers on the disparate guidance provided domestically at the state and local levels Marginalized populations are highlighted to identify areas where technology facilitated access and reach or contributed to difficulties catapulted by digital literacy or digital access issues To explain how people may have been empowered or left behind due to a new and unique reliance on technology this book is

structured based on the social determinants of health domains. Specifically, this book explains how technology was an umbrella domain that impacted every aspect of life during the pandemic, including access, use, adoption, digital literacy, and digital equity, as well as privacy and security concerns. Given this book's focus on the impacts to marginalized populations, there is a thread throughout the book related to the use of technology to perpetuate hate, discrimination, racism, and xenophobic behaviors that emerged as a twin pandemic during COVID-19. Part I explains the defining differences between primary and secondary impacts, as well as the unique guidelines adopted in each state. Part II of the book is focused on specific domains, where each chapter is dedicated to topics including economic stability, employment, education, healthcare, and the social community context through access to services. Part III focuses on unique technological considerations related to COVID-19, such as mobile health-related apps and privacy or security issues that may have posed barriers to the adoption and use of technology. Finally, the book ends with a conclusion chapter which explicitly explains the advantages and disadvantages of technology adoption during COVID-19. These exposed benefits and challenges will have implications for policies, disaster management practices, and interdisciplinary research.

Multidisciplinary Approach to Diversity and Inclusion in the COVID-19-Era Workplace Hynes, Rilla, Aquino, Carlos Tasso, Hauer, Josephine, 2022-02-25

Empathy, diversity, inclusion, and soft skills are key building blocks of an innovative workforce challenged to respond to the ever-growing needs of the COVID-19 era. Organizations that value diversity and inclusion are looking for ways to manage the shift of workers and skills from traditional manufacturing to the 21st-century vision by incorporating new technology and tools. In this new model, a diverse workforce is necessary as creativity and innovation grow from the skills that differentiate humans. Further research into the next steps for using diversity and inclusion in an efficient manner, discovering and training new skill sets, and building sustainability into the creative process is needed to fully embrace this new era of inclusion.

Multidisciplinary Approach to Diversity and Inclusion in the COVID-19 Era Workplace highlights best practices of successful companies in the new normal conditions caused by the pandemic and provides innovative research on diversity and inclusion to help organizations navigate the changing competitive global environment. Covering a range of topics such as remote work, unconscious bias, and information literacy, it is ideal for professors, researchers, academicians, practitioners, human resource professionals, industry professionals, and students.
