The Digital Disconnect Ellen Helsper, 2021-02-10. With the increased digitisation of society comes an increased concern about who is left behind. From societal causes to the impact of everyday actions, *The Digital Disconnect* explores the relationship between digital and social inequalities and the lived consequences of digitisation. Ellen Helsper goes beyond questions of digital divides and who is connected. She asks why and how social and digital inequalities are linked and shows the tangible outcomes of socio-digital inequalities in everyday lives. The book introduces the key theories and concepts needed to understand both traditional and digital inequalities research. Investigates a range of socio-digital inequalities from digital access and skills to civic participation, social engagement and everyday content creation and consumption. Brings research to life with a range of qualitative vignettes drawing out the personal experiences that lay at the heart of global socio-digital inequalities. *The Digital Disconnect* is an expert exploration of contemporary theory, research and practice in socio-digital inequalities. It is also an urgent and impassioned call to broaden horizons, expand theoretical and methodological toolkits and work collectively to help

achieve a fairer digital future for all Ellen J Helsper is Professor of Digital Inequalities at the Department of Media and Communications at London School of Economics and Political Science
