**Impact of Covid-19: Rapid Transformation of the 21st Century Society** Marcel Mečiar,Hamza Şimşek,2021-05-05 The contributions in this book demonstrate that the Covid 19 pandemic has led to negative socioeconomic impacts put a

tremendous strain on social institutions in many countries and changed the lives of people around the world. Society, economy, business, companies, management structures of companies, consumption habits of society, education and health sector have been significantly affected by the Covid 19 pandemic. Some of these effects are thought to be permanent even after the pandemic subsides. It is obvious that the process of digitization will continue in making a consumer's life more comfortable and safer. Some researchers estimate that approximately 60 percent of companies plan to let their employees continue working remotely from home offices in the post pandemic period. Many experts emphasize that online shopping, which increased rapidly during the pandemic period, will continue to dominate after the pandemic. Therefore, the social effects of the Covid 19 pandemic will be the subject of many academic studies today and in the future.
