A Sociolegal Analysis of Formal Land Tenure Systems Bernardo Ribeiro de Almeida, 2022-03-24 This sociolegal study focuses on the political legal and institutional problems and dilemmas of regulating land tenure By studying the development of the Timorese formal land tenure system this book engages in the larger debate about the role of state systems in addressing and aggravating social problems such as insecurity poverty inequality destruction of nature and cultural and social estrangement Land tenure issues in Timor Leste are complex and deeply shaped by the nation's history Taking an insider's perspective based on the author's experience in Timorese state administration and through the investigation of five analytical themes political environment lawmaking legal framework institutional framework and social relationships and practices this book studies the development of the Timorese formal land tenure system from independence in 2002 to 2018 It shows how political legal and administrative decisions on land administration are made what and who influences them which problems and dilemmas emerge and how the formal system works in practice The result is a portrait of a young nation grappling with the enormous task of creating a land tenure system that can address the needs of its citizens in the wake of centuries of socio political tumult and huge fluctuations in resources The book concludes by highlighting the importance of lawmaking and how abuses of power can be curbed by adequate administrative processes and laws Finally it argues that land administration is primarily a political matter The political dimension of technical solutions must be considered if we aim to achieve fairer formal land tenure systems The pertinence of the topics covered the multi disciplinary perspective and the research methodology followed make this book appealing to a variety of readers including international organizations practitioners academics and students engaged in land administration post colonial and conflict issues lawmaking rule of law public administration and issues of access and exclusion

Gender Parity and Multicultural Feminism

Ruth Rubio-Marín, Will Kymlicka, 2018-09-26 Around the world we see a participatory turn in the pursuit of gender equality exemplified by the adoption of gender quotas in national legislatures to promote women's role as decision makers We also see a pluralism turn with increasing legal recognition given to the customary law or religious law of minority groups and indigenous peoples To date the former trend has primarily benefitted majority women and the latter has primarily benefitted minority men Neither has effectively ensured the participation of minority women In response multicultural feminists have proposed institutional innovations to strengthen the voice of minority women both at the state level and in decisions about the interpretation and evolution of cultural and religious practices This volume explores the connection between gender parity and multicultural feminism both at the level of theory and in practice The authors explore a range of cases from Europe Latin America the Middle East and Africa in relation to state law customary law religious law and indigenous law While many obstacles remain and many women continue to suffer from the paradox of multicultural vulnerability these

contributors review the state of scientific knowledge of NTFPs by offering a survey of commercial and noncommercial products an overview of uses and users and discussions of sustainable management issues associated with ecology cultural traditions forest policy and commerce They examine some of the major social economic and biological benefits of NTFPs while also addressing the potential negative consequences of NTFP harvesting on forest ecosystems and on NTFP species populations Within this wealth of information are rich accounts of NTFP use drawn from all parts of the American landscape from the Pacific Northwest to the Caribbean From honey production to a review of nontimber forest economies still active in the United States such as the Ojibway harvest of plants recounted here the book takes in the whole breadth of recent NTFP issues including ecological concerns associated with the expansion of NTFP markets and NTFP tenure issues on federally managed lands No other volume offers such a comprehensive overview of NTFPs in North America By examining all aspects of these products it contributes to the development of more sophisticated policy and management frameworks for not only ensuring their ongoing use but also protecting the future of our forests
