X, Y, Z, T Damien Broderick, 2004-01-01 Damien Broderick has had a major impact as an Australian SF writer since 1964. He is undoubtedly the leading Australian theorist of the SF genre. Russell Blackford, Van Ikin, Sean McMullen, *Strange Constellations*. Now Broderick draws upon his skills as both critic and novelist to analyze science fiction of the last two decades and its earlier roots. The book proposes SF as a distinctive form of writing the extreme narrative of difference, then closely reads authors such as John Barnes, Jamil Nasir, Wil McCarthy, Robert Grossbach, and Poul Anderson. While concentrating on exciting work published in the USA and Britain, Broderick does not neglect his own country's contributions, discussing SF by George Turner and other Australians. His critical voice is witty, entertaining, and occasionally scathing.

Contemporary Lesbian Writers of the United States Sandra Pollack, Denise Knight, 1993-10-11 The first comprehensive biographical, critical, and bibliographical source on lesbian writers, this reference book features essays on 100 contemporary writers of poetry, fiction, and drama in the United States. Many had written as self-identified lesbians at some point during the 1970-1992 period of coverage. Each essay comprises a biography with personal history, often derived from interviews; an analysis of major works and themes; an overview of the critical reception and bibliographies of primary works; and of critical studies and reviews. The volume introduction by Tucker P. Farley situates contemporary lesbian literature in its historical and political contexts. Appendices list publishers of lesbian writers and periodicals featuring lesbian writing. An extensive bibliography provides nonfiction resources focusing on lesbian issues, including works in psychology, sexuality, parenting, health, history, and theory, as well as literature. A companion to *Contemporary Gay American Novelists: A Bio-Bibliographical Critical Sourcebook* edited by Emmanuel S. Nelson. Greenwood Press, 1993. This work will be an important addition to college and university libraries supporting gay and lesbian and women's studies programs and literary curricula incorporating this material. It will also be a valuable resource for public and school libraries and collections and specialists in American literature, providing information and analysis for understanding the expanding literary canon. **The Dissolution**

of Place Professor Shelton Waldrep, 2013-02-28 Postmodern architecture, with its return to ornamentality, historical quotation, and low culture kitsch, has long been seen as a critical and popular antidote to the worst aspects of modernist architecture: glass boxes built in urban locales as so many interchangeable, generic, anti-architectural cubes and slabs. This book extends this debate beyond the modernist/postmodernist rivalry to situate postmodernism as an already superseded concept that has been upended by deconstructionist and virtual architecture, as well as the continued turn toward the use of theming in much new public and corporate space. It investigates architecture on the margins of postmodernism: those places where both architecture and postmodernism begin to break down and to reveal new forms and new relationships. The book examines in

detail not only a wide range of architectural phenomena such as theme parks casinos specific modernist and postmodernist buildings but also interrogates architecture in relation to identity specifically Native American and gay male identities as they are reflected in new notions of the built environment In dealing specifically with the intersection between postmodern architecture and virtual and filmic definitions of space as well as with theming and gender and racial identities this book provides provides ground breaking insights not only into postmodern architecture but into spatial thinking in general
