Webbing Cyberfeminist Practice Kristine Blair, Radhika Gajjala, Christine Tulley, 2009 This is the first book collection to devote itself exclusively to issues related to women's lives in a culture of technology As such it is a key addition to feminist new media scholarship in computers and composition The book holds special appeal as the editors have put into conversation chapters of authors from diverse disciplines The value that is placed on cross disciplinary work is further demonstrated in the mix of theoretical pedagogical and rhetorical research that enriches the book in its entirety To explore the variety of cyberfeminist webs the collection has been organized around three themes Chapters in *Forming Virtual Kinships* examine cyberfeminist practices that do not neatly operate in standard academic communities such as classrooms or cultural centers instead foregrounding the extent to which female communities evolve

around aspects of women's daily lives as mothers, consumers and workers. Chapters in *Redrawing Academic Boundaries* offer a glimpse of practice within more defined pedagogical spaces providing a sense of the ways in which classroom and community network boundaries are often blurred and disrupted. Last, the text moves to explore how cyberfeminist webs both on the beyond the borders of standard spaces are developed using a variety of theoretical standpoints. **The**

Cybersecurity Self-Help Guide Arun Soni, 2021-10-18 Cybercrime is increasing at an exponential rate. Every day new hacking techniques and tools are being developed by threat actors to bypass security systems and access private data. Most people do not know how to secure themselves, their devices and their media shared online. Especially now, cybercriminals appear to be ahead of cybersecurity experts across cyberspace. During the coronavirus pandemic, we witnessed the peak of cybercrime which is likely to be sustained even after the pandemic. This book is an up-to-date self-help guide for everyone who connects to the Internet and uses technology. It is designed to spread awareness about cybersecurity by explaining techniques and methods that should be implemented practically by readers. Arun Soni is an international award-winning author who has written 159 books on information technology. He is also a Certified Ethical Hacker (CEH v8) from the EC Council US. His achievements have been covered by major newspapers and portals such as Business Standard, The Economic Times, Indian Express, The Tribune, Times of India, Yahoo News, and Rediff.com. He is the recipient of multiple international records for this incomparable feat. His vast international exposure in cybersecurity and writing make this book special. This book will be a tremendous help to everybody and will be considered a bible on cybersecurity. Handbook of Information Security, Information Warfare, Social, Legal, and International Issues and Security Foundations Hossein Bidgoli, 2006 The *Handbook of Information Security* is a definitive 3-volume handbook that offers coverage of both established and cutting-edge theories and developments on information and computer security.
