Markets, Planning and the Moral Economy D. R. Stabile,A. F. Kozak,2012-01-01 Markets Planning and the Moral Economy examines the rise of the Progressive movement in the United States during the early decades of the 20th century particularly the trend toward increased government intervention in the market system that culminated in the establishment of President Roosevelt s New Deal programs The authors consult writings from politicians business leaders and economists of the time using a variety of historical perspectives to illuminate the conflicting viewpoints that arose as the country struggled to recover from the worst economic downturn in its history This fascinating historical study explores the conflict between what the authors identify as two competing ideologies the market economy whose proponents advocated a hands off

approach and a trust in allowing the markets to adjust themselves and the moral economy whose supporters favored a system of government planning and stewardship designed to promote economic fairness Presenting arguments from each side by public figures and intellectuals this book offers the most thorough and complete analysis to date of the new economic discourse that arose during the Progressive movement and remains a vital component of our economic and political discussions today Professors and students of economics political science public policy and history will all find much to admire in this fascinating and accessible volume Scholars from across the world will also find this book helpful in contemplating the long term effects that the tension between the market economy and the moral economy can have on an individual country s economic system Motor Cycling and Motoring ,1904 **Automobile Trade Journal** ,1908 **The Horseless Age** ,1909 **Automotive Industries** ,1926 **Hair Research** C.E. Orfanos,W. Montagna,G. Stüttgen,2012-12-06 Several years ago a friendly looking young man walked into my office at the University Department of Dermatology in Cologne introduced himself as a diplomate chemist executive member of a family owned rather small German company manufacturing hair care products and proposed to me straight forward to organize an international meeting on hair research In view of the large number of new developments in the field something like this should be done after all he said he also promised to provide financial support Such a meeting should be on the highest possible level I said and he agreed I took the challenge and my visitor kept his promise Three years later the First International Hair Congress was organized at the sophisticated new Congress Center in Hamburg in which 630 participants from 36 countries were registered After three and a half days of formal sessions informal discussions workshops and poster presentations our unanimous feeling was that this has been a most successful meeting The young chemist was right The idea was excellent The growth and presence of hair and its distribution over the human body as a cosmetic attribute has become during the last two decades a matter of tremendous emotional significance Hair can be rather easily formed according to one s sence of style representing his personal image and his social feeling If it becomes unacceptable or out of fashion the hair style can be easily changed the hair regrows as a biological requisite without any additional cost Journal of the Engineers' Club of Philadelphia and Affiliated Societies ,1916 *Proceedings of the Engineers' Club of Philadelphia* ,1916
