Stephen Long,2021-11-17 Forty years of avid bicycling came to a conclusion for D Stephen Long in early October 2020 Fearing his own imminent death required Long to reflect on life on its beginnings middle and endings This work uses the lessons learned from cycling and the experience of the rapid onset of illness to discuss God friendship racism sexuality justice virtues vices and much more It offers a moral theology but one more in keeping with how we take it up not through theories but in the practices that make up everyday life Attention to everyday life can help us live well and in so doing prepare us to die well      *Shifting Mobility* Dewan Masud Karim,2025-03-13 Embark on a journey into the heart of a new industrial revolution one that promises to redefine human mobility for generations to come In this groundbreaking exploration we confront the promises and perils of new mobility navigating the intricate landscape where technology intersects with urban society As cities evolve and technology shapes our daily lives the ethical dimensions of this transformation remain largely uncharted territory Amidst the rapid advancement of new mobility systems this book sheds light on the moral dilemmas and philosophical underpinnings that often go unnoticed From the ethical implications of technology to the systemic flaws in planning and design we delve into the core of this paradigm shift By understanding the foundational principles of mobility and the hidden codes that govern human movement we pave the way for a more equitable

and inclusive future At the heart of this transformative vision lies a comprehensive framework for building a new mobility ecosystem one that prioritizes human well being and equity above all else Through innovative planning processes and redesign concepts we aim to bridge the gap between technology and society ensuring that every individual has access to safe efficient and sustainable modes of transportation From low emission vehicles to multimodal transit hubs this book presents a blueprint for reimagining urban spaces and redefining the way we move By embracing shared values and collective responsibility we strive to create a world where mobility is not just a privilege but a fundamental human right As we embark on this journey towards a more sustainable future let us remember that the true measure of progress lies not in technological innovation alone but in our ability to build communities that thrive together Join us in shaping the future of mobility one where humanity and equity reign supreme
