Cyprus The Destruction Of A Republic British Documents 196065:

Cyprus, the Destruction of a Republic Salahi Ramadan Sonyel,1997 The inter communal Cyprus problem is at the heart of relations between Greece and Turkey The United States Britain and the European Union are urgently pressing for a settlement The problem stems from events in the 1960s on which important insights are highlighted by recently released British documents which also reveal the significant parts played by other powers in the decisions that led to the emergence of the Cyprus issue as it is today Keeping the Peace in the Cyprus Crisis of 1963-64 A. James,2001-11-28 During the Cold War the small state of Cyprus was of great strategic importance to the West Britain the United States and Nato all had valuable installations there and any armed conflict between Greek and Turkish Cypriots could easily suck two nearby Nato members Greece and Turkey into war When therefore intercommunal fighting broke out in Cyprus in December 1963 the West was deeply embarrassed This book examines the consequential efforts of first Britain and then the UN to keep the peace **Cyprus and the Financial Crisis** John Theodore,Jonathan Theodore,2016-01-12 The 2012 2013 economic crisis in the Republic of Cyprus is commonly attributed to a number of factors including the exposure of Cypriot banks to over leveraged local property companies the knock on effect of the Greek government debt crisis and international credit rating agencies downgrading the Cypriot government s bond credit status What followed was unexpected and controversial a bailout on condition of a one time bank deposit levy on all uninsured deposits in the country s second largest bank the Cyprus Popular Bank and on the uninsured deposits of large proportion of the island s largest commercial bank the Bank of Cyprus Many have questioned the implications of Cyprus ties with the Russian financial system as well as the draconian and unprecedented bailout terms imposed on the Cypriot population by the Eurozone There has been little written from the Cypriot perspective on these events This book presents a study of the events surrounding the recent Cypriot Financial Crisis and its impact on the Eurozone It incorporates insights from leading protagonists in the Cypriot government and banking sectors and focuses on qualitative research to assess the events that formed the backdrop of the crisis The book analyzes the policies of many public and private institutions and presents the crisis alongside other Eurozone bailouts to compare and contextualize the ongoing issues Cyprus and the Financial Crisis also explains the political and historical backdrop of the events including the wider Cypriot experience since the 1974 invasion and the unravelling financial relationship between Cyprus Greece and Russia It incorporates the views of Cypriots from a wide and diverse spectrum and presents the resilience of the island in fighting back to beat forecasts for recovery helped by the Eldorado of gas finds off its southern shores

Peacemaking Strategies in Cyprus Eleftherios A. Michael,2015-09-04 This book takes a systematic and holistic approach to examining all 41 peacemaking initiatives used to settle the Cyprus question from 1955 onward under the auspices of the United Nations and or other actors in the international system including the United States Canada the UK Greece and Turkey The analysis of peacemaking strategies dynamics and obstacles fleshes out numerous relationships

between i peacemaking processes dynamics and outcomes from signaling to negotiations and to post accord completion and implementation ii concessions constraints and leverage during peacemaking negotiations and third party mediation and iii obstacles to finding an endgame solution and satisfying conditions for lasting peace expectations that all parties can agree on and implement successfully After documenting 62 interviews with top political leaders in Cyprus including top tier elected elites and third party mediators and about 70 more interviews with key informants including academics researchers members of negotiating teams technical committees and working groups this book concludes with a plethora of descriptive as well as prescriptive propositions on how peacemaking processes could lead to more sustainable and implementable peacemaking initiatives in Cyprus and in similar protracted and seemingly intractable cases

International Law and the Relationality of States Erdem Ertürk, 2023-03-23 This book critically engages with theories of the recognition of states under international law Demonstrating that recognition is a constitutive relation that is imperative for the construction of international subjects the book argues that prevalent theories of recognition fall short of accommodating this imperative The book traces the source of this shortcoming to Vattel's notion of absolute sovereignty A paradox pertains to this notion as absolutely independent states seemingly come into being in a community which sets the law that determines statehood The book shows how this paradox is reproduced in constitutive theorists' idea of recognition as a sovereign gesture of consent and declarative theorists' perception that states can come into being on a singular basis without any need for interaction This necessitates a rethinking of the role of recognition in a way that circumvents the problems generated by the notion of absolute independence whilst accommodating the relational element of coming into being To achieve this purpose the book draws upon Hegel's theory of recognition supplementing it with Bataille's and Derrida's critical readings of Hegel's thought In this respect the book departs from the restrictive economy of recognition that constantly recreates a paradoxical perception of sovereignty elaborating a more general economy of recognition that accommodates the notion of subjects in flux This critical engagement with a key notion in international law will appeal to legal and political theorists as well as scholars and students in international relations
